Buffet 5

- Zieher buffet systems: “Skyline“/ “Squareline“/ “Curve“
- buffet stands “Stablo“
- buffet bridges and trays “Podia“
- The “Zieher-system“: “Classy“ / “Neo“ / “Pearl“ / “Antique“ “Lightning Buffet“ / “U-Turn“ / “Solid“ / “V12“ “Carbon 4.0“ / “Konkret!“ / “Basic“
- buffet platters made of laminated plastic, glass and natural stone
- buffet steps
- buffet bowls made of pewter alloy, brass, stoneware, shell, glass, stainless steel, china and walnut
- serving tongs and servers
- fingerfood trees
- serving trays and buffet systems made of walnut: “Mercato“ / “Solid“
- etagere “Choice“ and display “TriBo“
- rail system “Move“

Catering 121

- melamine trays and accessories in GN sizes: “CaterLog“
- tray system “Modul“:
  - walnut
  - melamine
  - glass and china inserts

China, glass and more! 141

- main series and small series made of china / glass
- china plates, platters, trays, bowls and small bowls
- glass plates, platters, trays, bowls and small bowls
- shell series “Capiz“
- cloches made of glass and china
- dinner plates

Wine glasses and more! 202

- champagne flute VAGANZA
- wine glass series VISION
- wine decanter “Eddy“

Miniatures 210

- anti-slip coasters made of silicone
- borosilicate glass, double-walled glass, glass miniatures
- china miniatures
- stainless steel miniatures
- party cutlery, amuse gueule / tapas spoons, glass and honey spoons
- skewers and natural stone

Cruet stands, trays and more! 245

- chocolate / truffles box, suitable inserts made of solid surface material
- bread baskets / boxes, trays and cutting boards made of walnut
- trays made of shell and melamine
- cruet stands and trays with suitable inserts
- food displays and etageres
- jam trays
- trays made of melamine and glass with 3 / 4 sockets for inserts
- vinegar / oil bottles
- wind lights, LED tealights and accessories

Room service / guestrooms 284

- storage / presentation boxes, roomservice trays and accessories, cutlery box “Solid“
- trays made of shell “Capiz“
- bowls and baskets made of pewter alloy “Reef“
- bridges and trays “Podia“
- coat rack “Kibu“

Cutlery 297

- “Mao“
- “Goa“

“Design by Zieher” - our motto for 12 years!

In the year 2006 we designed the first items ourselves and placed them on the market.
Since that time developing and implementing exclusive design objects has been our calling.
On this page we show a couple of the most important creations of the past years.

Design, innovation and quality are our mission!

“Skyline” - Manhattan-Feeling on the buffet

“Skyline”, Zieher’s buffet system, allows a maximum of flexibility for most exclusive buffet presentations. Different heights enable you to install big buffet platters on the one hand - on the other hand they can be stabilised by insertion into the corresponding serration. The square columns are made of highly-polished stainless steel and due to the standardised serration heights they can be combined with the “Squareline” (pages 13 to 17) and “Curve” series (pages 18 and 19).

The spectacular look that brings the silhouette of skyscrapers to mind, is available in a highly polished version and for an intensified effect also in golden and copper versions (page 9) as well as in black and white colouring (page 8). The optionally available Zieher LED-lights are a perfect addition to the system and come in 2 versions: cabled and rechargeable (pages 38 and 39). In combination with light-diffusing tubes (page 38), they provide a perfect illumination of the system in various colours.

The buffet platters
are available on page 61.

Buffet platters made of grey glass are available on page 60, black glass trays and glass steps on pages 62 and 63.

8204.02	frosted look	33.5x33.5

Cabled and rechargeable, battery-powered LED-lights are available on pages 38 and 39.

“Skyline” made by Zieher - Compare the original to copies of inferior quality!

Reasons to stick with the original:

- Different versions: polished, golden and copper, matt black and white
- Highest Zieher quality and perfect accuracy in manufacturing
- Compatibility with other Zieher items
- 100 % fitting illumination
- Massive stainless steel 18/10
- Designed by Zieher in 2009

The “Skyline” buffet system allows a maximum of flexibility for most exclusive buffet presentations.

Due to the same serration heights, the “Skyline” system is combinable with our “Squareline” system (pages 13 to 17) and “Curve” (pages 18 and 19). The different adaptors of the “Squareline” system may equally be used with the “Skyline” stands (exception: columns with 58 cm height).
Please note: If the walnut adaptor (item 4736) is combined with “Skyline”, the display cannot be illuminated, due to constructional reasons.

Some exemplary displays can be seen here:

“Skyline“ black, connector pieces acrylic glass satined (page 16), platters grey glass (page 60), acrylic glass tubes (page 8), rechargeable LED-lights (page 39).

“Skyline“ white, walnut connector piece (page 16), walnut tray (page 112).

“Skyline“ highly polished, connector pieces acrylic glass black (page 16), platters black glass (page 58), acrylic glass tubes (page 8), rechargeable LED-lights (page 39).

“Squareline“, the buffet system with 1000 faces!

“Squareline“ white, acrylic connector pieces black (page 16), glass platters black (page 58), glass steps black and glass trays black (page 62).

Our classic “Skyline“ has been changed and advanced to become “Squareline”, which now offers several new features apart from its pure design.

The stainless steel displays are available in two heights. Five versions, highly polished, golden, copper, matt black and white, grant the columns completely different effects! The “Squareline“ towers can be stacked on top of each other by using connector pieces that are available in three different versions. A 90° rotated arrangement of the stands increases the creative leeway tremendously and permits a buffet set-up at an angle.

Besides the technical aspect, the connector pieces are mainly a decorative element. They are available in glossy black as well as in satined, light-diffusing acrylic. The third version is handmade from solid walnut in best quality. In connection with the various displays and buffet platters uncountable possibilities for the creation of a buffet arise.

Optionally “Squareline“ offers the possibility of a 100 % integration of our “Lightning Buffet” – the full height of the columns will be illuminated from the inside. When using the satined connector pieces, their light-diffusing effect even enhances the spectacular sight. The system is based on the buffet classic “Skyline” (pages 6 to 12), both in construction and in form. So both systems can be combined quite easily.

Just let your imagination run wild!

“Squareline“ polished, acrylic connector pieces satined (page 16), platters transparent glass (page 57), buffet platters (page 76), glass steps transparent (page 63), „Lightning Buffet“ tubes (page 38), rechargeable LED-lights (page 39) .

"Squareline" black, acrylic connector pieces satined (page 16), glass platters grey (page 60), "Lightning Buffet" tubes (page 38), rechargeable LED-lights (page 39).

"Squareline" copper, acrylic connector pieces satined (page 16), glass platters white (page 59), "Lightning Buffet" tubes (page 38), rechargeable LED-lights (page 39).

No matter whether it is classic design in stainless steel with wood, golden and copper, or the highly modern design in matt black and white with stunning lighting – "Squareline" will adapt to every atmosphere and will give your guests lasting impressions!

“Squareline“

“Squareline“ white, acrylic connector pieces black (page 16), glass platters black (page 58), glass steps black and glass trays black (page 62).

“Squareline“ polished, connector pieces walnut (page 16), glass platters milky (page 56), trays “Solid“ walnut (page 112), glass steps transparent (page 63).

“Squareline“ black, acrylic connector pieces black (page 16), glass platters black (page 58), glass steps black (page 62).

“Squareline“ white, acrylic connector pieces satined, platters white glass (page 59), “Lightning Buffet“ tubes (page 38), rechargeable LED-lights (page 39).

"Squareline"

The rechargeable LED-light (item 8150, optionally available, page 39) offers numerous fixedly installed colours as well as special programs like colour gradient and flickering-candle-effect. The compatible remote control (item 8151) allows the synchronization of up to 20 LED-lights at the same time and enables the change of the complete buffet-colouring by just pressing one button!

Alternatively and especially for fixed buffet installations we recommend the use of the Zieher LED-light with cable (item 8104, page 38). With this item, 5 lighting colours can be set by using stick-on colour-filters.

The connector pieces feature slots for the cables, so that the cables can be laid invisibly through the columns of the "Lightning Buffet". To do this, the detachable lids of the acrylic tubes have to be removed. If cabled LED-lights are used, it is recommended to lay down all components of a "Squareline"-tower next to each other on the table to facilitate the installation of the cables.

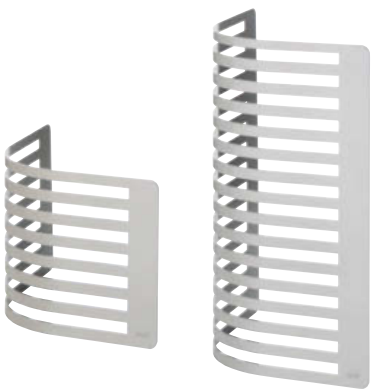
rechargeable LED-light, page 39

cabled LED-light, page 38

acrylic tubes, items 8120..., page 38

Please note: To illuminate the system you will need one LED-light and one acrylic column in the fitting size (12 resp. 24 cm) for each "Squareline" stand. The acrylic columns are available in sets of 3 pieces (items 8120...) and can be found on page 38, the information on our LED-lights can be found on pages 38 and 39.

"Squareline" polished, acrylic connector pieces satined, platters transparent glass (page 57), buffet platters (page 76) and glass steps transparent (page 63), "Lightning Buffet" tubes (page 38), rechargeable LED-lights (page 39).



buffet stand "Curve"
galvanised steel, 3 mm thick, white (powder-coated), not dishwasher-safe

item	l x w x h in cm	PU
8311.22	27x27x22.5	2 pcs
8311.46	27x27x46.5	2 pcs

Our complete range of buffet platters is available on pages 52 to 63.

"Curve"
– flexibility with a concept

"Curve" is made of 3 mm strong galvanised steel with a high grade powder coating. This guarantees great stability and corrosion-resistance. The colouring in matt black or white as well as the gaps between the bars were expressly chosen by the Milanese designer Itamar Harari to make the raisers completely compatible with the systems "Skyline" (pages 6 to 12) and "Squareline" (pages 13 to 17). The attractively priced "Curve" is therefore not only suitable as a starter version but also as an optimal extension of existing systems.

During the development of "Curve" special attention was given to the mobile usage. Thus all components can be stored in an extremely space-saving way. Simple and swift to install, "Curve" is the perfect equipment for outdoor areas, events and catering.

buffet stand "Curve"

8310.46	27x27x46.5	2 pcs

Design: Itamar Harari

“Stablo”- filigree versatility!

The buffet stands made of solid, brightly polished stainless steel impress by their high-quality workmanship and delicate appearance. Bowls and dishes almost appear hovering while slip-proof caps on the feet ensure safe support.

The height of the two large stands (items 8016 and 8016.01) is adjustable via extensions from 80 cm to 120 cm. Massive and bulky buffet tables become virtually redundant.

The buffet stand with its integrated ring (item 8016.01), allows for the presentation of plates and platters (max. dia. 21 cm on the lower level), but also for the insertion of two extravagant wine coolers made of borosilicate glass or resin. The coolers, positioned at an angle, may also be used with the “Stablo” stands in the sizes M and L.

The shape of the cooler corresponds to the already well-known Zieher glass cloches (pages 189 to 193), robust resin or thicker quality borosilicate glass ensures the necessary stability! Due to its shape, any condensing water on the outside is drained off to the bottom tip. Dripping water can easily be caught by placing a small bowl on the floor or the buffet table. The integration of the optionally available Zieher rechargeable LED-lights creates breathtaking visual effects and puts champagne but also iced food in the limelight!

A three-staged buffet etagere is offering a lot of space for all kinds of food. It can be equipped with numerous trays and plates of the Zieher range. Anti-slip caps avoid annoying noise and ensure the safe grip of the trays.

Design: Uwe Kopp, Jörg Stricker

The etagere with suitable trays is available on pages 24 and 25.

5161.62	62x21x3.5

The glass stands with a suitable cloche are available on page 194, the miniatures on pages 211 to 244.

The buffet bridges and trays of the "Podia" series offer several advantages!

They are light but robust, flexibly usable and can be stored in a space-saving way.

With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - "Podia" offers multiple possibilities for use and flexible handling.

Three trays in GN formats (1/2, 1/3 and 2/8) are especially suitable for different miniatures made of porcelain and glass; anti-slip silicone coasters in different styles (page 210) guarantee a good grip during service.

All parts of this series consist of form-glued authentic wood veneer, the bridges are available in two types of wood. The light version harmonizes very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

More items for the room service/ guestrooms are available on pages 285 to 296.

"Basic" + "Konkret!"

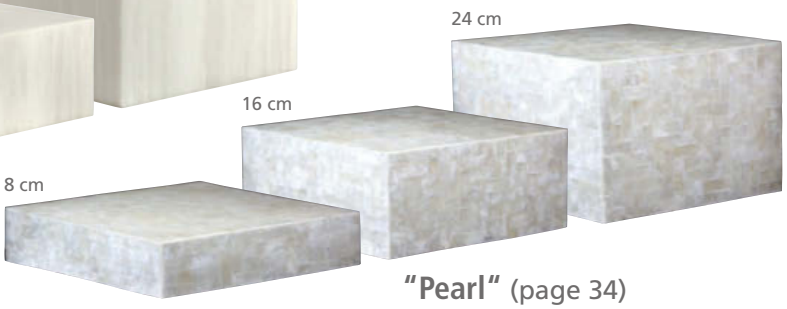
The "Zieher-System"

**Zieher offers innumerable possibilities to present food optically appealing and highly flexible. When developing new buffet products it is most important for Zieher to guarantee compatibility among the individual systems.
The "Zieher-System" with its different heights of 12, 24 and 36 cm or 8, 16, and 24 cm leads to a perfect composition of different presentation levels on the buffet, thus offering more flexibility in the arrangement of a buffet.
A wide range of buffet platters and trays of hardened glass, natural slate and laminated plastic in various styles are available on pages 52 to 63.**

Thanks to the boundless possibilities, varying materials and designs, every buffet can easily be adapted to any accommodation. The system becomes part of the whole interior and assimilates harmonically into any ambiance.

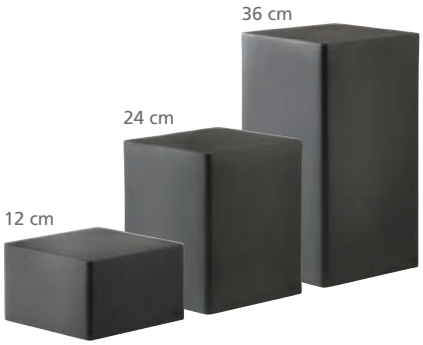
"Basic" + "V12" - Carbon

"Classy" (from page 30 on)



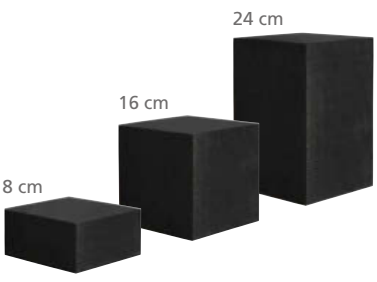
"Pearl" (page 34)

"Neo" (from page 32 on)

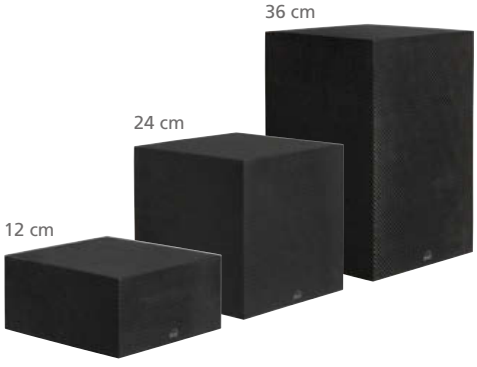


"Neo" (from page 32 on)

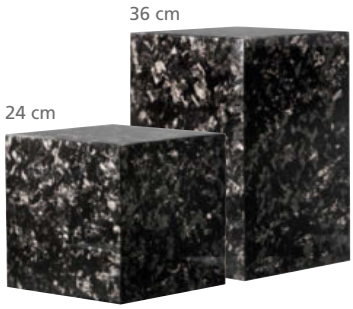
"Neo" (from page 32 on)



"V12" - Carbon (from page 42 on)



"V12" - Carbon (from page 42 on)



"Carbon 4.0" (from page 43 on)

The buffet displays "Classy" are made of translucent material and impress by their fascinating texture that is reminiscent of Italian marble or alabaster. The precise workmanship of the cubes as well as the silk-matt surface increase the fancy impression even more.

"Classy" is available in the Zieher system heights of 8, 16 and 24 cm and can therefore be combined in various ways. The open bottom side of the large displays allows an effective illumination by the optionally available LED-lights. With their different light colours, the LED-lights emphasise the appealing look and the interesting marbling of the material.

The small cube has no open underside and thus cannot be illuminated. The advantage of this construction lies in its high functionality. Its dimensions of 24 cm x 16 cm x 8 cm enable a positioning in 3 heights - a clever supplement to the squarish displays.

The baskets of the "Reef" series are available on pages 66 and 67.

It is possible to stage "Classy" with or without lighting, strikingly eye-catching or quite decently. Whether unobtrusive and modern or playful and opulent – "Classy" fits perfectly into any surrounding!

Closed on all sides, cannot be illuminated.

buffet display "Classy"
resin, white, alabaster look, closed on all sides, can be used in any position, not diswasher-safe

item	l x w x h in cm
8231	24x16x8

The LED-lights are available on pages 38 and 39.

Notch for cable

buffet display "Classy"
resin, white, translucent, alabaster look, bottom side open, notch for cable on back side, not diswasher-safe

item	l x w x h in cm
8230.08	38x38x8
8230.16	38x38x16
8230.24	38x38x24

"Neo"

The optionally available LED-lights (pages 38 and 39) – either rechargeable or cabled – are the ideal completion to put "Neo" into perspective. By using the waterproof (up to 1 m) and remote-controlled rechargeable LED-light it is also possible to illuminate the ice in the iceboxes from below – a really fascinating view. A big choice of LED-light colours guarantees spectacular effects!

The glass platters of the series "Ice" are available on page 177.

The trays and bowls of the series "Artisan" are available on pages 78 and 79.

buffet display/icebox "Neo"
resin, anthracite, matt finish, translucent, bottom side open, notch for cable on back side, not dishwasher-safe

item	l x w x h in cm
7005.08	53x32.5x8

buffet display/icebox "Neo"
resin, anthracite, matt finish, translucent, bottom side open, notch for cable on back side, not dishwasher-safe

item	l x w x h in cm
7005.16	53x32.5x16

Please note: Occasional air inclusions in the material as well as minor colour deviations are production-related and cannot be avoided.

The buffet system "Neo" is made of anthracite coloured resin. The matt surfaces and softly rounded edges of these translucent cubes appear unobtrusive and modern. "Neo" unfolds its true potential when the columns are effectively illuminated. A wine cooler resp. cloche made of the same material (page 23) is a beautiful complement and blends harmonically into the system.

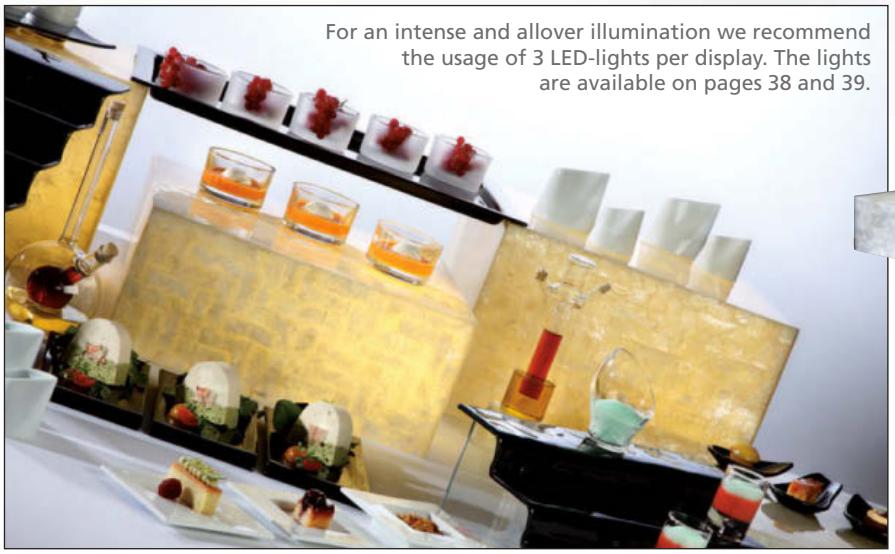
7001.24	20x20x24
7001.36	20x20x36

Spot colours upon request.

"Pearl"

The unique look of the "Pearl" buffet displays is achieved by the processing of high-grade shell imitations molded into polyresin. This is why each cube is an individual item and might vary in its form and structure. The displays are the outcome of highly sophisticated handicraft. Each piece is sanded until it becomes extremely thin and then customized to the desired shape. Thereafter, the single pieces are arranged into an elaborate herringbone pattern. In order to guarantee the necessary stability of the displays, the inside is made of fibreglass and the outside of high-gloss artificial resin. Whether with or without illumination, the pearly coloured displays are outstanding in every light!



For an intense and allover illumination we recommend the usage of 3 LED-lights per display. The lights are available on pages 38 and 39.

"Lightning Buffet"

Bringing light into the darkness!

The illuminated buffet stands in connection with platters made of natural slate, laminated plastic or glass (pages 54 to 65) make every buffet shine in a radiant new light.

The innovative LED technology does not radiate any heat and is powered by a harmless voltage. It is characterized by its longevity and its low power consumption. The standard light of the cabled LED is white, but thanks to the coloured plastic covers, the colour scale is enlarged to contain red, yellow, green and blue (page 38).

Alternatively there is a rechargeable LED-light with several different functions available. Besides a fixed colour range and special programs, its particular feature is a remote control that enables the changing of colours and programs while in use. For a detailed description of this LED-light and its functions please check out page 39.

The columns made of satined acrylic (page 38) are available in seven sizes and feature a removable cover to enable the insertion of round bowls.

The height of the columns items 8122... has been adjusted especially for the illumination of the "Skyline" buffet system. The lids of all acrylic glass tubes are removable. Therefore the tubes can also function as supports for plates, bowls, etc.

LED-light with cable, item 8104...

CE

For permanently installed buffets which are not dismantled on a daily basis, it is recommended to use the LED-light with cable item 8104.

The standard light is white; the alternative colours blue, yellow, green and red can be chosen by using the precisely fitting plastic covers items 8105… (available as accessories).

A set consists of 3 lights and the matching power supply, which can be fitted with a total of 6 lights. All cables are white and the power cable of the light has a length of 3 metres, which is enough to stow away adapter and power supply safely and invisibly under the buffet table.

LED-light

Rechargeable LED-light with radio remote control:

The compact LED-light is controlled by remote control, which allows for a more flexible use of the Zieher "Lightning Buffet" and renders it independent from any power supply and spatial requirement.

This creates a lot of new possibilities for the buffet set-up: out in the open, next to the pool or in the middle of the room – without any troublesome cables and controllers that might get into the guests' or the personnel's way.

The necessary radio remote control item 8151 (to be ordered separately) rounds off the whole system in regard to function and handling and allows to choose the colouring within a range of up to 15 m without dismantling the buffet first. Due to many different colours and special programs, the buffet will fit into every kind of atmosphere.
The lighting colour for the complete buffet can be changed by pressing only one button.

- 7 fixed colours and 3 special programs, manageable via remote control (white, green, red, blue, yellow, violet, turquoise, flickering-candle-effect, colour change, colour gradient)
- 3 different brightness-settings selectable (100 % - 70 % - 50 %, only adjustable directly on the LED-light)
- Fixedly integrated high-end batteries guarantee a running-time of up to 20 hrs (at the lowest brightness-setting)
- LED-light waterproof up to a depth of 1 m
- Remote control (to be ordered separately) controls up to 20 LED-lights simultaneously / range up to 15 m
- Charging device can be mounted on a wall and features a space-saving cable spool

Experience the "Lightning Buffet" – no matter where - you will be excited!
A choice of applications for the Zieher LED-light can be found on page 36.

5261.02	28x24x12	10	2 pcs
5261.03	32x36x14	10	2 pcs

"U-Turn" is applicable as a simple buffet-bridge. By arranging the buffet-bridges one obtains unobtrusive elevations which are compatible with innumerable other products by Zieher, because of their sizes fitting into the Zieher system (12, 24 and 36 cm). More information can be found on pages 28 and 29.

DESIGN by ZIEHER

The buffet displays "Konkret!" are available on page 48.

The buffet displays of the “Solid” series are made of solid walnut, like all the other items of this series. They may be used as containers for cutlery or French bread, but they are particularly suitable for the elevation of the “Modul” walnut trays (page 132) or other buffet platters.

The filigree finger joints at the corners testify to precise craftsmanship of the highest quality and guarantee perfect stability!

The displays made of solid wood are visually appealing and fit perfectly into the existing buffet systems “Solid” and “Mercato” (pages 104 to 115).

DESIGN by ZIEHER

The walnut trays of the “Modul” series are available on page 132.

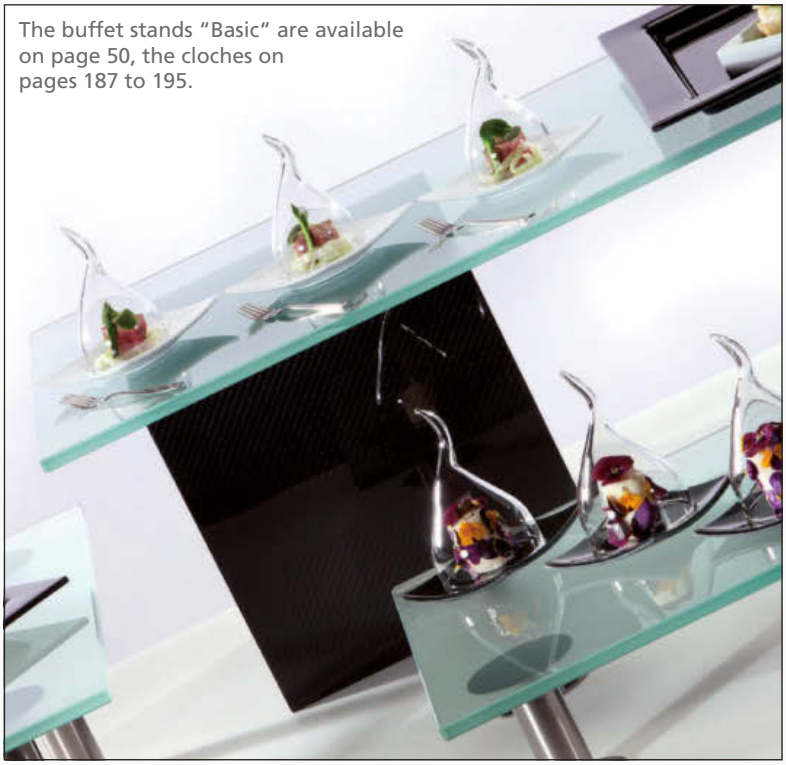
“V12“ - Carbon

“V12“ combines modern and reduced forms with the precious material carbon. The elegant and three-dimensional look of the carbon fibre paired with maximum stability - “V12“ adds high-tech to the buffet!

In connection with the huge Zieher assortment of buffet platters, “V12“ provides a maximum in flexibility and best usage of buffet surfaces. Six different sizes of the “V12“ displays offer a lot of possibilities for the individual composition of your buffet.

The standardised height classification of the carbon buffet displays of 12, 24 and 36 cm resp. 8, 16 and 24 cm permits an easy and simple combination with other Zieher systems. For an overview please consult pages 28 and 29.



The buffet stands “Basic“ are available on page 50, the cloches on pages 187 to 195.

“Carbon 4.0“

“Carbon 4.0“ upgrades that innovative material made of carbon fibre to a new level!

Contrary to “V12“, which contains a woven carbon fabric, these displays consist of fibre chips that are pressure-grouted and embedded in synthetic resin. The result is a completely new look of the classic carbon material.

Depending on the incidence of light, the displays sparkle in dark and light shades, the depth effect and brilliance of the high gloss surface intensifies this effect enormously.

This completely new kind of carbon fibre material is currently only used for the interior design of a handful of selected sports cars. This fact emphasizes the exclusivity of the Zieher buffet displays!

Storage and transportation trolley

We are happy to offer you an individual solution for the transportation and storage of your miscellaneous items. Please ask us!

“Konkret!”

DESIGN by ZIEHER

The XXL bowl “Konkret!” is available on page 49.

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability which greatly facilitates handling. The puristic flair of that system will be intensified by using glass plates. Those and other variations made of laminated plastic and slate are available on pages 52 to 63.

"Konkret!" - Distinct design for highest flexibility!

Plain lines, neutral shapes and two different colour variations put your food presentation into focus and offer a maximum of flexibility while at the same time using the available space at your buffet most effectively. Maximum reduced shapes in combination with the rough look of concrete – "Konkret!" blends in particularly well with modern architecture. "Less is more" is the motto!
The well-known light grey version has been supplemented by a dark grey version. Both variants of the displays are available in eight sizes.
A real eye-catcher is the double-walled XXL bowl in dark grey colour. The impressive diameter of 100 cm creates space for various drinks or chilled dishes (page 49).

The XXL bowl in dark-grey concrete look inspires by its enormous size and the little weight. In empty state it can easily be carried by one person. A filigree, but extremely solid stand made of galvanized and powder-coated steel forms the perfect basis. A round glass plate separates ice from melting water and at the same time creates space for the Zieher rechargeable LED-light (page 39), which allows the illumination of the ice in striking colours. No matter if placed on the buffet table or on the stand - this bowl will leave a permanent impression on your guests!

"Basic"

Food: Pâtisserie Walter (www.patisserie.de)

"Basic" is the simple and flexible solution to create different presentation levels. The high-quality columns made of matt brushed stainless steel (18/10) are a fitting base for buffet platters made of glass and other materials. The columns are fitted with felt pads on the top to protect the surface of glass platters and to level out any unevenness of the tables. The feet with 7 cm in diameter guarantee firm standing. The unobtrusive and unadorned design of the buffet stands puts the food and drinks in the limelight.

"Basic" is available in four heights and can be combined with several Zieher buffet systems (pages 28 and 29). The carbon buffet stands "V12" presented here can be found on pages 42 to 44.

Please note: We do not recommend the use of "Basic" in combination with buffet platters made of natural slate. Due to the slightly varying thickness of natural slate platters, this combination might shake.

The card holder made of stainless steel is available on page 100.

Buffet platters and more!

Zieher is offering a wide range of buffet platters made of laminated plastic, natural slate and several kinds of glass. Due to the wide choice of formats and types of materials, there are many combination possibilities with Zieher´s buffet systems (pages 5 to 51). The offer is being completed by various buffet stairs, trays and bowls (pages 62 to 97).

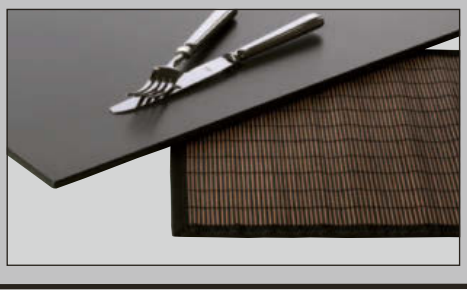
2543.30	square	30x30
2544.30	rectangular	30x20

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical cleavage. Every piece is therefore unique. Small deviations in structure, thickness (10 to 15 mm) and weight of the platters cannot be avoided because it is in the nature of the product. Also there could be single inclusions of other minerals and fossils. These exceptional features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid) may damage the surface in case of longer contact. Therefore we recommend avoiding any direct contact with edibles.

The miniature saucers made of slate are available on page 242, the “Amuse” series on pages 216 to 220.

Buffet platters made of laminated plastic!

- Dark grey, black intermediate ply
- 8 mm thick
- Break-proof
- Dishwasher-safe
- Scratch-proof, antistatic



The “Amuse” series is available on pages 216 to 220.

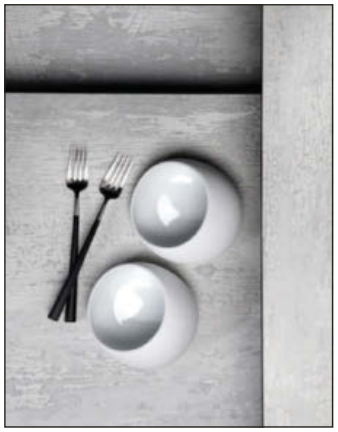
8002.13	rectangular	95.4x39



Break- and scratch-resistant, antistatic and dishwasher-safe - these features of laminated plastic platters and the resulting advantages are convincing! The well-known dark grey buffet platters are complemented by two new versions. The old varnish white "Shabby Chic" decor is reminiscent of exfoliating paint from antique doors and furniture. It emphasizes the radiance of imperfection and perfectly fits the furnishings of the attractive chalet style. Unplastered brick-lined walls, load-bearing structural elements made of steel beams, exposed concrete and the morbid charms of abandoned factory buildings create the ambience for the rust-coloured decoration "Industry". This is evocative of weathered steel surfaces, which are marked by decades of corrosion. All laminated buffet platters by Zieher have a dark middle layer and can be used on both sides due to having the decoration on both sides.

8008.13	rectangular	95.4x39	8

Each piece is unique!

The irregular colouring of the Zieher buffet platters is created by colour pigments which are manually applied and fused into the glass. The colour is fixed inside the glass and therefore dishwasher-safe and abrasion resistant. Structured undersides and rounded edges emphasize the effect of the platters and the individual and interesting shades of grey and intensity of colour create unique patterns in each platter!

The bowls and baskets of the "Reef" series are veritable eye-catchers due to their organic structure and exceptional shapes. Many individual parts are assembled by hand to create truly extraordinary pieces of art that are reminiscent of the submarine world's coral reefs.

In the lobby or at the reception desk, which are both a hotel's hallmark, these impressive bowls guarantee lasting impressions with guests and visitors, especially when decorated with blossoms or flower bouquets.

The outside texture of the bowls differs within the series: whether smoothly rounded (page 66) or roughly structured with dark, patinated deepenings (page 67), each variant has its own charm!

The displays of the "Classy" series are available on pages 30 and 31.

"Fakir"

Please note: The items made of brass are suitable for cold/dry food only. Not dishwasher-safe.

“Roots, Matrix & Fakir” - Brass all of a piece!

Massive brass produced in traditional sand casting creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination. Opposing in form and shape but still belonging together these bowls “Roots” and “Matrix” as well as the exceptional displays of the “Fakir” series add up to a harmonic overall composition.

The bowl “Roots”, a tight web of rootlike structures, and “Matrix”, strictly geometrically constructed of hexagons, could hardly be more opposing. Especially this aspect makes the combination of the two so interesting. Besides the presentation of bread and fruit on the buffet these bowls fascinate as sculptures or decorative elements as well. An interesting add-on to the “Fakir” bowls are round glass platters of the Zieher product range. These can be laid on easily and generate thus the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

“Pueblo”

bowl “Pueblo”
stoneware, outside white (matt finish), inside taupe (glossy), round, organically shaped

4600.40	40x18x9.5	1 pc.
4600.45	45x20x11.5	1 pc.

The glasses of the series „VISION” are available from pages 203.

The stoneware bowls “Pueblo”, due to their appearance, are evocative of unique handmade pieces. The filigree body, organic shapes and the charming contrast between matt and shiny glaze award the certain something to that series.

The matt outside of the bowls generates a pleasantly soft haptic effect, shiny glazed insides are done in a stylish taupe colour.
The complete series “Pueblo” is available on page 152.

"Capiz"

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights the double-walled bowls produced in mosaic-look create fascinating effects, thus becoming the eye-catcher at the buffet. The double-walled construction provides insulating characteristics. This prevents the formation of condensate on the outside of the bowls to the greatest possible extent. More items of the series are available on pages 174 and 175.

Please note the care instructions: suitable for cold and dry food, not dishwasher-safe.

“Shine”

The stainless steel bowls of the “Shine” series are double-walled and therefore have an isolating effect. This helps to prevent water condensation - even at elevated temperatures. Cold food stays cold and warm food stays warm longer.

The slim top edge appears elegant and filigree. The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel, ivory and taupe coloured) makes that series an eye-catcher. “Shine” is the perfect combination of elegance and subtlety. It is easily changeable to achieve a variation of presentations and it is effective in its double-walled construction.

bowl “Shine”
stainless steel 18/10, outside polished, inside satined, round/oblique, double-walled, dishwasher-safe

item	Ø in cm	height in cm	content in l

2262.20	19.7	8.5 / 11	0.9
2262.24	23.7	10 / 13	1.6

Please note:

When cleaning the coated bowls (ivory and taupe coloured) in the dishwasher, the coating at the rim might abrade in the course of time. Therefore it is recommended to clean these items by hand.

“Duplex”

Useable on both sides!

The grey solid coloured glass of these handblown unique pieces serves as an unobstrusive backround and suitable framework for perfectly arranged dishes. The bowls can be used on both sides. A soft recess is formed when the closed side is up for ambitious dishes. By using it upside down there will be more capacity which is ideal e. g. to fill in ice.

bowl “Duplex”
grey glass, round, bottom side open

item	Ø in cm	height in cm
4813.28	28	6.5
4813.35	35	7.5
4813.46	46	10

Please note:

The bowls are mouth blown. Therefore it is impossible to avoid the variation in glass thickness and weight.

Glass bowls of highest quality -

made of 3 layers fused in one!

The fusion of two layers of coloured and one layer of crystal clear glass results in an inspiring depth effect and brilliance!

Manufactured in old tradition!

Each of these high grade bowls is unique and almost completely handcrafted. At this, coloured glass is completely covered with crystal clear glass. This process awards the bowls with top brilliance and an impressive look. The handblown glass blank is modelled manually, whereby unique pieces are created which excite by their organic shape.

bowl
glass, black with clear rim, wavy, handblown

item	Ø in cm	height in cm
4811.01	approx. 38-40	approx. 9.5
4811.02	approx. 50-52	approx. 14
4811.03	approx. 56-58	approx. 15

bowl
glass, white with clear rim, wavy, handblown

item	Ø in cm	height in cm

item	Ø in cm	height in cm
2376	33/28/23	45

The trays and bowls of the "Artisan" series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside.
The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

"Artisan" is a series of contrast!

The plane surface of the trays facilitates the service and prevents unpleasant noise. When used at the buffet, arranged food can be presented in an appealing way and is accentuated by the reflection of the polished surfaces.

The buffet displays "Neo" are available on page 33.

Stainless steel - refined!

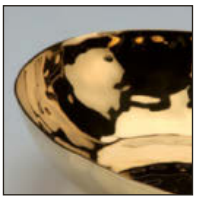
We gladly offer you buffet displays, bread baskets or cruet stands etc. with different surfaces. This option is feasible for almost all products made of stainless steel.

Highly polished as well as matt stainless steel can be refined in gold, copper or black colour in PVD refining. The products pictured on this page are parts of the Zieher range. Other items and refinements in black can be offered on demand.

Advantages of the PVD coating

- Food-safe
- Dishwasher-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

stainless steel, polished

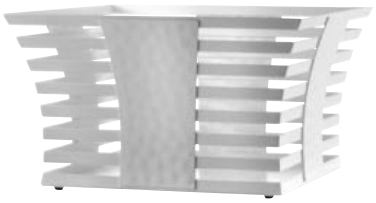


golden

copper

black

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to the PVD refining this coating is not dishwasher-safe. We will be delighted to advise you!



Price, minimum order quantity and delivery time upon request. Please ask us, we will gladly prepare an individual offer for you!

“Art de Buffet”

The exceptional design of the “Art de Buffet” series acts as an eye-catcher at both modern and elegantly traditional buffets. It presents artistically arranged dishes in a favourable way. Every piece of this series is made of massive stainless steel 18/10, has a hand-made hammered finish and is six times hand-polished.

The XXL bowl item 2170
is available on page 89.

Elegantly served and presented in style - classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three or four levels and in two sizes. Petit fours, desserts, chocolates or other delicacies are effectively presented by the classic mini format etageres.

The larger versions are perfectly suitable for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table. Numerous suitable inserts made of china, glass, stoneware and stainless steel are available on pages 270 and 271.

“Fingerfood-Tree”

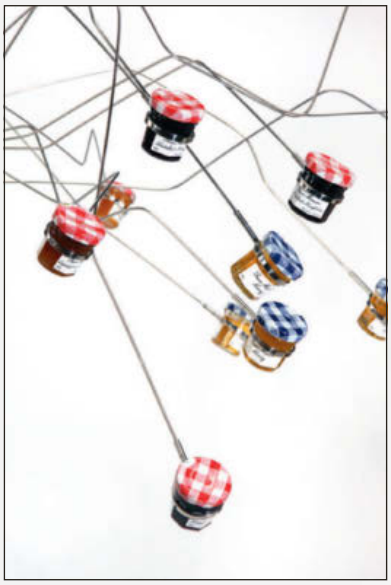
Wildly bent tree branches supported by a base made of polished stainless steel: The fingerfood-trees by Zieher are absolutely delightful due to their extraordinary look and variable uses achieved by the different attachments!

A number of suitable attachments and applications offer a lot of possibilities and form the basis for the chef´s imagination. The fingerfood-trees are perfect for patisserie creations, savory snacks in the form of mini-wraps or skewers, fruit with chocolate icing or just for jam at breakfast buffets. Furthermore they can be placed on both buffets and bar tables with the solid base ensuring stability.

This extraordinary way of presenting fingerfood will surprise and fascinate your guests and will definitely leave a lasting impression.

The fingerfood-trees are available in two sizes (height when bent: 90 cm and 120 cm) and are furnished with 30 branches, which in turn can be fitted with 5 suitable attachments (page 102). Besides a clip that holds wooden skewers and a spiral for small wraps and waffles, we offer rings in three sizes, the medium size of which is especially designed for holding small jam jars (e.g. Bonne Maman).

Velcro straps to fasten the branches and a stout carrier bag are available from the accessory section and allow easy transport and space-saving storage of the bent trees.



Design: Jochen Gromann

Equipped with ring size M the fingerfood-tree is perfectly suitable for presenting portion jam, e. g. Bonne Maman.

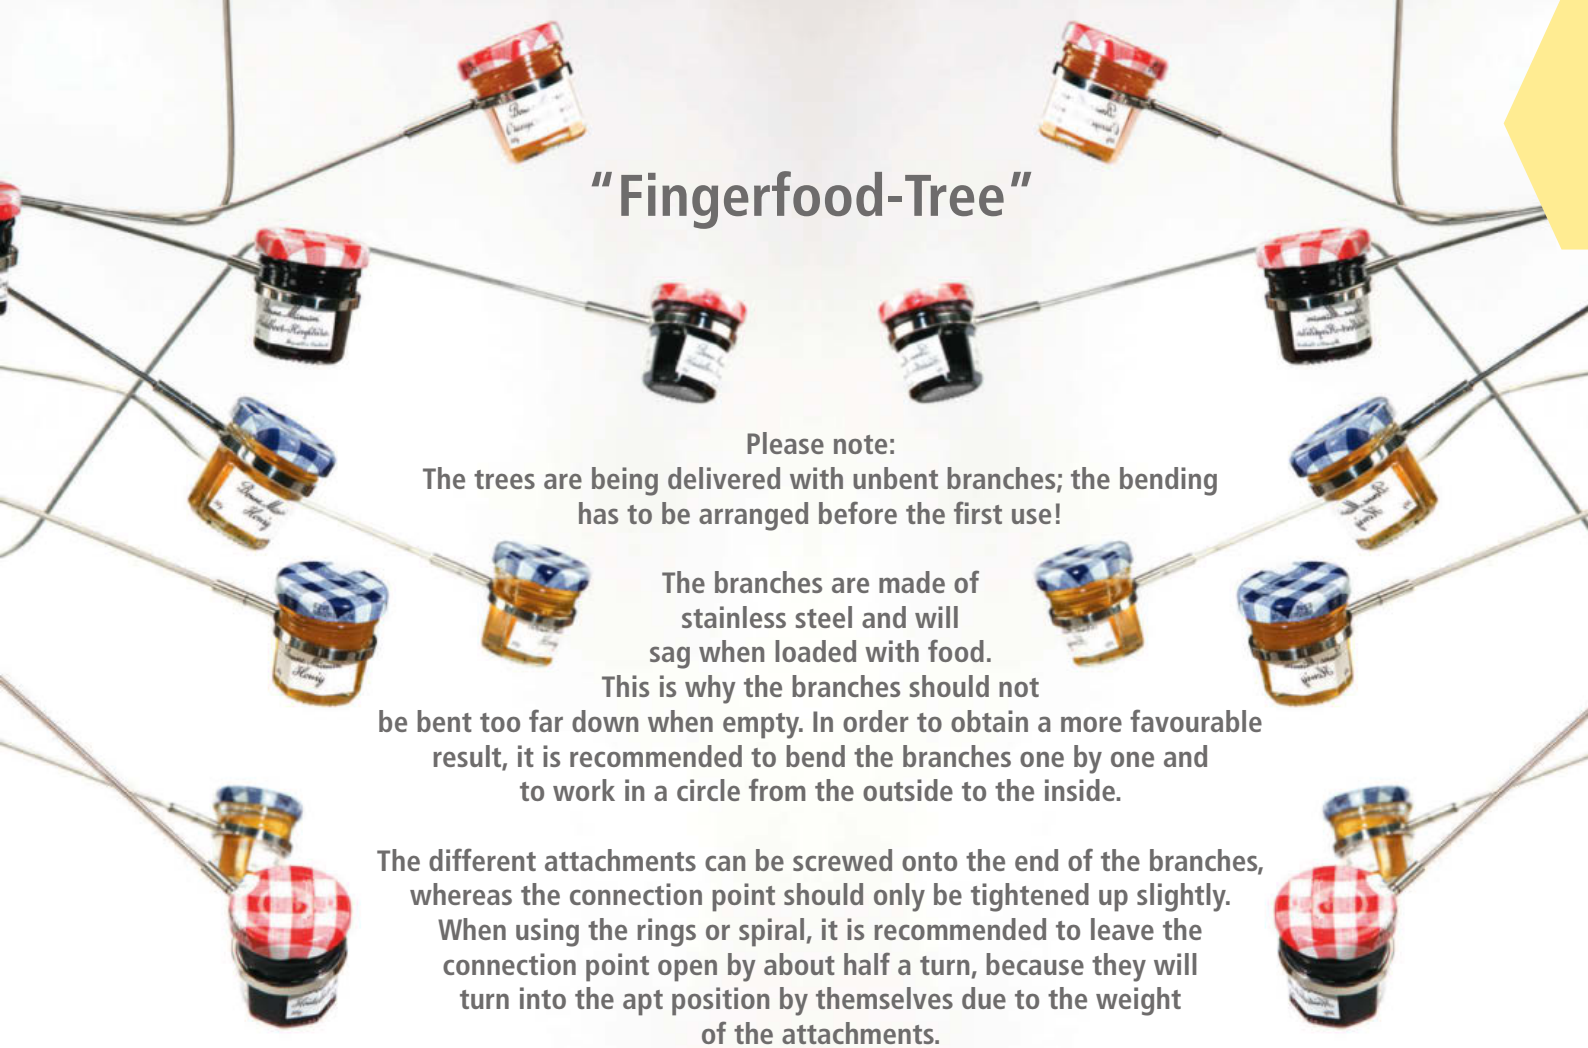
“Fingerfood-Tree”



Please note:
The trees are being delivered with unbent branches; the bending has to be arranged before the first use!

The branches are made of stainless steel and will sag when loaded with food. This is why the branches should not be bent too far down when empty. In order to obtain a more favourable result, it is recommended to bend the branches one by one and to work in a circle from the outside to the inside.

The different attachments can be screwed onto the end of the branches, whereas the connection point should only be tightened up slightly. When using the rings or spiral, it is recommended to leave the connection point open by about half a turn, because they will turn into the apt position by themselves due to the weight of the attachments.

“Mercato”

Integrated rubber feet guarantee stackability and safe standing.

The lateral cut-outs are suitable for buffet platters with a max. width of 21 or 34 cm.

The bed tray is available on page 287.

New!

buffet display/basket “Mercato”
walnut, food-safe sealed, stackable, not dishwasher-safe, with 4 rubber feet (screwed on)

item	l x w x h in cm
4768.08	43x30x8
4768.12	43x30x12
4768.16	43x30x16

The “Mercato” buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cut-outs offer numerous advantages. “Mercato” can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (pages 52 to 61) can simply be laid on or pushed into the lateral cut-outs of the baskets (max. width 21 or 34 cm). In addition to the mere presentation of fruit or baked goods, “Mercato” is also ideal for the coffee break or for placing miniatures of any kind.

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation. The “Solid” bed tray is a nice addition to this system. Due to its integrated, foldable feet, it can do without risers for elevated positioning. For more information on the bed tray please see page 113, for the fitting “Solid” breakfast buffet please check pages 106 to 111.

Bread and more ...

The buffet displays “Solid” made of walnut are available on page 41, the trays of the “Modul” series on page 132.

tray stand “Solid”

item	l x w x h in cm
4747	46.8x12x54.5

... attractively presented!

The presentation of bread is not only important at the table but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (to be found on pages 110 and 111) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of that tray that is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions (for the tray) offer space for several miniatures (pages 263 and 264) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item!

Suitable miniatures in sizes 5 cm x 5 cm or 7 cm x 7 cm
are available on pages 263 and 264.

More items of the "Solid" walnut series are available on pages 244 to 256.
Not dishwasher-safe. Please note the attached care instructions.

Please order the glass inserts (items 1668.03 or 1670.03) separately.

Not dishwasher-safe, do not immerse in water!

“Solid”

Show cooking is a popular trend!

Whether using it for catering, at events or at the hotel's own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both, cutting boards and bridges, have been chosen in such a way that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

“Solid” is entirely made of walnut, the probably most beautiful and most stylish of the European woods.

More items from this series can be found on pages 244 to 257.

The Zieher cutting boards are oiled. The use of the cutting boards naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface.
The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

bread cutting board “Solid”

walnut, oiled, not dishwasher-safe, with 4 rubber feet, with walnut grate (39.8 cm long, 24.3 cm wide, 1.8 cm high, exchangeable) and 18/10 stainless steel drawer for crumbs (with magnetic fixing)

"Connect!"

DESIGN by ZIEHER

Serving platters made of walnut!

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series "Connect!" convince as a snack board, serving and cutting board, or as a presentation platter created by the combination of several elements. "Connect!" is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high-quality oils which makes it easy to freshen up the surface from traces of everyday wear and tear.

"Solid"

The roomservice tray as well as the new bed tray with feet stand out due to the precious walnut which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The tray also cuts a good figure on the buffet. The positioning feet make it possible to dispense with the use of displays for heightened placing. A speedy set-up and flexible handling facilitate daily operations.

The tray stand for the roomservice tray item 4735 is available on page 286.

GIFT BOX

New!

bed tray „Solid"
walnut, with feet, food-safe sealed, not dishwasher-safe, stackable, with 2 handles, recessed on one side of the rim

The cutlery/napkin box for the table is available on page 248.

Each cloche on this page is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 117), these items are made of a single massive glass drop. As a result there can be air inclusions and minor streaks which cannot be avoided. Each cloche is individual, the result is a harmonic enlivenment of the buffet for an attractive price.

More cloches made of glass and china are available on pages 187 to 195.

glass cloche

Cloches made of borosilicate glass are heat resistant, dishwasher-safe and very easy to handle for the guests. The main features of this material are a great resistance against heat and changes in temperature as well as a high breakage resistance. Each item is manufactured by hand and therefore shaped individually.

"Move" sets your buffet into motion!

Front-cooking requires fast and fluent processes. Every buffet will stay neat and tidy with Zieher's shapely sliding system "Move".
The cook (or pastry cook) is able to equip the buffet with new portions from the back and the guests are able to help themselves from the front. There are no empty surfaces, no waiting for supplies and no obstruction of the guests - this is what "Move" is offering you.

The design originates from Tobias Greissing (www.greissing-design.de), whereas the underlying idea was developed by Pâtisserie Walter (www.patisserie.de). In cooperation with Zieher the system was made ready for the market. "Move" allows you unproblematic handling and provides your guests with a tidy and constantly filled buffet!

With three different "Move" dishes made of china featuring three different depths, food can be put directly onto these dishes or may be served in other small bowls/glasses that are presented in the "Move" dishes.

The rails are made of high-quality stainless steel and offer space for up to six bowls/plates. Furthermore, thanks to their length of 75 cm, they can be placed ideally on almost every buffet and their slip-resistant bases made of plastics guarantee safe stability.

Design: Tobias Greissing (www.greissing-design.de)
Food: Pâtisserie Walter (www.patisserie.de)

Idea and concept: Thomas Dötzer, Dötzer Restauration, Bayreuth, Germany (www.doetzers.de)

The “Cater-Log” frame with its fitting trays in GN-format offers modern looks as well as several advantages for the everyday use in catering:

- Pleasant design
- Hygienic transportation of prepared dishes (for flying buffet)
- Stackable frames, usable as buffet display as well
- Several presentation levels, implemented easily and quickly
- Variable use due to different tray sizes

Robust & elegant - melamine!

- Modern design with matt-black surface
- Dishwasher-safe
- Food-safe
- Odourless
- Easy-care

The table spoon "Goa" is available on page 300.

The cutlery/napkin box for the table is available on page 248.

VISION from page 203 onwards

"Slope"

DESIGN by ZIEHER

item 4595.30

The melamine tray "Slope" is characterised by its unobtrusive shaping and the pleasant feel of the matt and finely structured surface. An elevated corner and the resultant asymmetry award the tray that certain something.

Besides the obvious function as a service tray for espresso, cocktails, snacks and more it also performs well in the hotel bathroom or as a decorative trivet in the hotel room.

"Slope" is available in a black and a white version and in two sizes. The robust raw material melamine appears very elegant due to its matt surface and of course it complies with demands of everyday use like food safety, dishwasher resistance as well as stackability.

Design: Wilma Greim

Zieher and livecookintable® have started a cooperation for the "Modul" series (pages 131 to 139), the catering system by Zieher. Livecookintable® has developed fitting displays to integrate "Modul" perfectly into this innovative table system and to maximise the advantages of both product lines.

ZIEHER

livecookintable®

The livecookintable® system offers:

- **The system solution for gastronomy**
- **A portable cooking system with exchangeable modules for cooking, barbecue, heating, cooling, etc.**
- **The first livecooking device with a carrier bag**
- **Simple and intuitive handling**
- **Easy setup without tools**

livecookintable Zieher Displays:

livecookintable food bridge + display, suitable for Zieher tray and china series "Modul" (pages 131 to 139).

livecookin**table**®

livecookintable® multistation:

With the livecookintable® multistation a versatile product has been developed. It is suitable for the combined use with the product series “Solid” (pages 108 to 110), “Modul” (pages 131 to 139) as well as with the melamine trays (pages 121 to 126) by Zieher. Whether it is used to shelve china, to serve coffee, tea or bread or as a cutting station, this multistation and Zieher offer an unlimited multitude of possibilities.

Discover all facets of the livecookintable® system: www.livecookintable.com

ZIEHER

Non-slip covers in matt black: Classy look - great benefit!

In connection with the trays made of walnut, the matt black look and the velvety texture, these mats create an interesting contrast. In combination with the "Modul" melamine trays, they become almost invisible.

The mats made of food-safe silicone are extremely skid-proof and facilitate the serving considerably. No clattering, no shifting of porcelain bothers guests and staff!

To clean the mats, please use a moist cloth with some detergent and wipe off with a cloth and clear water.

Non-slip coasters for single miniatures are available on page 210.

The sizes of the mats perfectly fit the walnut trays items 4721, 4722 and 4723. With a sharp cutter knife the mats can be adjusted in size to fit the same sized melamine trays items 4581, 4582 and 4583. We recommend the use of a cutting board and a steel ruler.

non-slip mat
silicone, black, temperature resistant (-40 °C - +230 °C), food-safe, for walnut trays "Modul" items 4721, 4722 and 4723, can be cut to fit melamine trays "Modul" items 4581, 4582 and 4583

item	l x w in cm	PU

4660.02	65.5x20.6	6 pcs
4660.03	87.6x20.6	6 pcs

“Modul”

“Modul” is a flexible product ready for “Flying Buffet” service - and therefore ideally suited for use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a wooden spoon bench for 4 spoons. When using two spoon benches together, 4 long skewers can be placed safely on top. Every single piece has been specially developed for this catering system. Trays, bridge and spoon rest are available in 2 variations: The series “Modul” is manufactured from walnut wood, which is probably the most precious of all European hardwoods (pages 132 and 133) and from melamine in a modern matt-black design (pages 134 and 135). Suitable miniatures made of china and glass (pages 136 to 139) can be fitted to all trays! Shapely anti-slip mats made of silicone (see left page) facilitate catering to a great extent.

Play upon a variety of possibilities!

“Modul” - walnut

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood’s warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

The party spoon items 1938... are available on page 240.

base tray “Modul”
walnut, food-safe sealed, not dishwasher-safe, stackable

item	l x w x h in cm
4721	47.5x25.5x3.1
4722	70x25.5x3.1

4767.24	12x12x24	2 pcs

Suitable inserts for the bridge “Modul” are available on page 139.

Please note the care instructions: not dishwasher-safe, do not immerse in water!

“Modul“ - walnut

- European walnut
- Warm shades of brown with vivid grain
- High-quality workmanship
- Finger-groove on the bottom side guarantees safe and simple handling

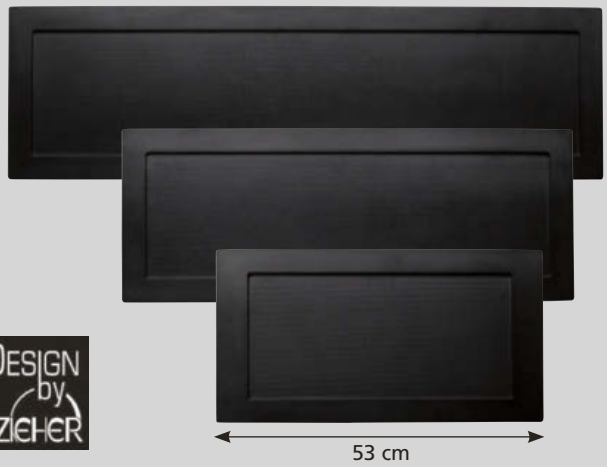
DESIGN by ZIEHER

The buffet stands “Antique“ are available on page 35.
More items made of walnut are available on pages 104 to 117 and 244 to 257.

“Modul“ - melamine

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and comfortable haptic.



DESIGN by ZIEHER

The bowl “Modul” is available on page 136.

base tray “Modul”

Zieher somewhat different!

The buffet systems by Zieher were developed to put the most exquisite products in the limelight in a very effective and diversified way.

The section "displays" shows that they are not limited to the use with food: high-class jewellery and watches, as well as other kinds of luxury goods find a representative stage with the Zieher display systems.

The discreet and classy design never pushes for attention but offers a unique and distinctive means of presentation that puts the product at the centre of attention.

China, glass and more!

“Donna”

Bedded on china,

These elegant porcelain-pillows “Donna“, which are inspired by a woman’s curved back, are definitely not made to sleep on but offer an ideal presentation area for high-end dishes or present a sculptural place to keep various items of everyday life. Even when used as a soap dish, the medium pillow made of glass or porcelain cuts a fine figure. The version made of porcelain is available in three sizes and stages every dish and surprises the guest. Especially the two small pillows can be used perfectly on the buffet and offer an exciting contrast to conventional forms of glass or china.

Platters and dinner plates made of hardened black glass are available on page 58.

glass or wood!

“Donna”

New!

glass pillow “Donna”
glass, satined, in black gift box

item	l x w x h in cm	
5446.01PB	16.5x11x3	

The new variants of the “Donna” pillows are made of frosted glass and oiled walnut and despite their hard and massive raw materials they surprises by their pleasantly soft and velvety feel.
One just has to touch the softly curved forms of this hand charmer. The version made of solid walnut, one of the finest European types of wood, has its own appearance. The sealing with oils emphasizes the striking grain of the wood and gives the surface a silk-matt gloss as well as amazing haptics. Whether used as a fruit bowl, as a place to keep accessories or as sculptural decoration - “Donna” seduces in every material!

"Cuspis"

Borosilicate glass in its most beautiful shape!

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes and the inspiration for their shaping was derived from the nut of the oak tree. The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dishes move closer to the guest. Used as a bowl, it offers space for gravies, sauces and more while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Shapely amuse-gueule spoons as well as an extraordinary honey spoon, which can also be used as a skewer, complete the "Cuspis" series. These items are available on page 212.

If the item is used upside down as a plate, the two rings on the plate's underside can be used to separate the prepared dish into different sections and the cloches of the "Cuspis" series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

“DressCoat”

“DressCoat“ was created by the glass and porcelain designer Nadine Podewski. The elegant language of design is reminiscent of set tables, the creation of the plates and bowls respectively is characterised by the apparently free falling drapery of table cloth. This creates a seemingly weightless, almost floating effect.

The slightly concave shaped surface offers space for artful decorated dishes and reliably avoids the sloshing of sauce.

“DressCoat“ is available in five different sizes. Besides the main application as a plateau plate each item can also be used as a bowl. The falling folds add up to an exciting game of shapes - in particular if used as a bowl.

With “DressCoat“ you will dish up delicacies!

Food: www.sander-gourmet.com

Design: Nadine Podewski

“DressCoat”

One of the smallest “DressCoat” variations (item 4386.02B) is unglazed on the outside. It is characterised by its fine body and pleasant haptics. The filigree porcelain item is translucent and is therefore - besides being a stunning means to present food - also perfectly suitable as a tea light holder!

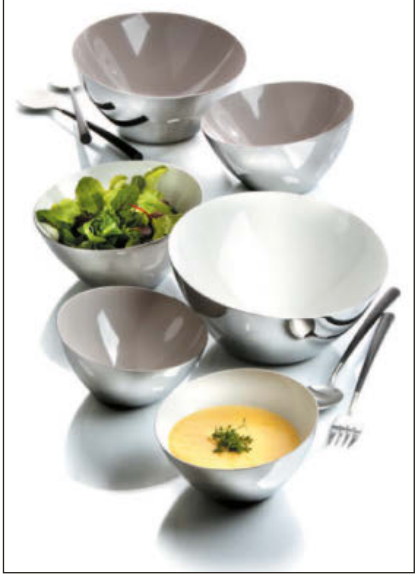
The double-walled stainless steel bowls “Shine” are available on page 72.



“Pueblo”

The glass series VISION is
available on pages 203 to 209.

The stoneware series “Pueblo”, due to its appearance, is reminiscent of unique handmade pieces. The filigree body, organic shapes and the charming contrast between matt and shiny glaze awards the certain something to that series.

The matt outside of the plates and bowls generates a pleasantly soft haptic effect, shiny glazed insides are done in a slightly shaded white or stylish taupe colour, depending on the product. “Pueblo” can be used at a set table but also in the buffet area and adds a natural and unobtrusive quality to the dishes.

4501.PB	36.5x36.5x4.5

"Collina" provides almost unlimited possibilities. Whether in the lobby or on the buffet, for the presentation of fruit and pastry or as an exclusively decorative element, this series is versatile. The smaller version of the plate, which is divided into nine parts, is perfectly suitable for various antipasti and delicacies from the patisserie. A selection of fruit can be put in the limelight beautifully by using platters with either three or four deepenings.

The possibilities when considering private use are numerous, too. "Collina" may be used as a fruit bowl, but it is also suitable as a means to neatly organize objects of everyday life, such as the mobile phone or keys.

In order to protect the sensitive surfaces of furniture, every plate comes with feet made of rubber, which can be stuck on if needed. The rigorously geometrical structure permits the assembling of several plates which allows to enlarge the platter in both - length and width. When looking at the surface from the side, the arrangement has the appearance of a desert landscape arbitrarily formed by the wind.

Non-slip coasters are available on page 210,
the small bowl “Amuse” on page 216.

“Plat de Luxe”

The small series “Plat de Luxe” offers the perfect basis for the presentation of high-quality foodstuffs. Two flat plates and one deep plate convince by their fine porcelain body and the reduced design, which has been taken from a sphere in all parts. In addition to the plain white version, the biggest plate is also available with two decors. The black decor “free” has a modern and playful aspect, the white decor “geo” is the classic, reserved variant. Whatever the use, “Plat de Luxe” convinces everywhere – in the gourmet restaurant as well as in conventional catering.

The cutlery series “Mao” and “Goa”
are available on pages 297 to 300.

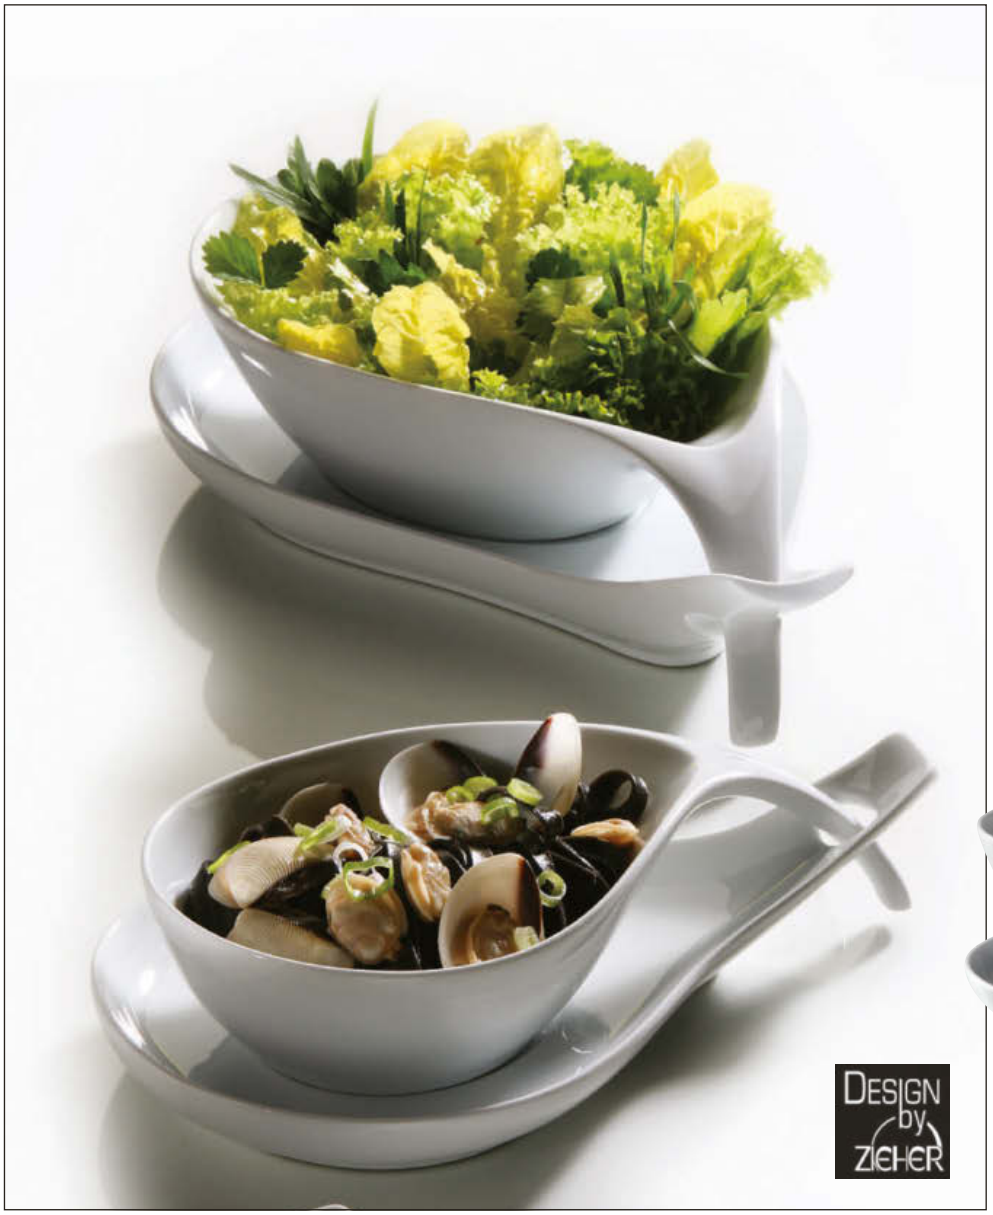
The black glass trays are available on page 276.

"Duo"

The delicate handle of the "Duo" duet's organically-shaped bowl literally penetrates the saucer. Both parts thus melt into a unity of form and function. Taken individually, the saucer creates a perfect space for the presentation of amuse gueule, tapas or antipasti variations. The small opening in the handle leaves space for decorative accents.



The tray "Podia" item 8732.01
is available on page 27.

SELECTION A.

SelectionA. gives creative chefs the opportunity to present their food in many different ways in order to leave a mark with their guests both by taste and looks. The dish moves closer to the guest and single parts almost seem to be floating freely in the room. The diversity of variations of this series, when combined with other items, is nearly unlimited.

The series consists of different plates and bowls made of porcelain and glass. So-called "dinner plates" are available in two versions which can be used on their own or in combination with various attachments. These form the basis of the system. Shapely rings made of silicone available in two sizes, in black or white, allow for a piling of different accessories and are completely slip-proof. Surfaces are matt structured and form an interesting contrast to the porcelain's shiny gloss. These pieces can be consciously used as design elements or, as well, be assembled almost invisibly. There are no limits to the chef's imagination.
A third ring outside the series (page 224) has been designed to hold test-tubes, the ribbed surface structure ensuring easy insertion of the tubes.

SELECTION A.

DESIGN by ZIEHER

The numeration on this page refers to the items described on pages 168 and 169.

The series “Modul” is available on pages 172 and 173.

The “Flow” series permits a variety of new creative potential to the chef, a possibility to present different elements in a new and perfect way. Since it comes in three sizes, the tubes can be applied in any part of the kitchen: The small “Sauce Flow” is especially suited for presenting sauces during the main course or entrée. The “Soup Flow” is extraordinarily interesting when serving soup in transparent glass either standing or flowing with some puree acting as sealing. It is possible to present liquids in layers which can be released either by service staff or the guests themselves. That way liquid food can be set up in a very stylish way, separated from any crispy food. With salad designed as biosphere or a vegetable skyscraper - there is no limit to your imagination except the edge of the plate.

The glass tubes “Flow” are available in three sizes and made of high-quality borosilicate glass which stands out due to its hardness and high temperature resistance.

glass tube “Sauce Flow”

Matching walnut and melamine trays, bridges, glass and stainless steel accessories are available on page 130 to 139.

"Cave"

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight this porcelain piece only partly reveals its interior. "Cave" consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. Touching the cave-shaped bowl it feels almost like a palm stone made of white gold, having a soft appearance with delicious contents. "Cave" is predestined for a use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

item	Ø in cm	PU
7115.36	36	2 pcs

The glass NOSTALGIC of the series VISION is available on page 207.

Ivory-coloured, nacreous gloss grants these products their special appeal. Genuine clamshells are grinded razor-thin and embedded in robust resin. This process protects and stabilizes the delicate clamshell-wafers in the long term. The transparent resin creates an impressive depth effect and classy shine on every item of the “Capiz” series. This especially applies to the structured surfaces and shoulders of the dinner plates. These plates with their radially structured shoulders are available in the light version as well as in the trend colour taupe.

Please note the care instructions: suitable for cold and dry food, not dishwasher-safe.

The filigree but extremely strong plates made of imbued glass inspire by their exceptional look and the reduced design. Wide rims put skilfully arranged dishes into the focus of events, the irregular surface of the deep and flat plates is reminiscent of elaborate handicraft and bestows an extravagant character on the series.

Non-slip coasters made of silicone are available on page 210, the glass cloche item 4982.09 on page 191.

miniature glass bottle

glass, round, with glass lid (round), with notched stopper for pouring with closed lid, height incl. lid

5731.28	28	1 pc.

"Ice"

The absolutely stunning plates of the "Ice" series are made of glass chips which are coalesced and compressed. This procedure allows white and transparent materials to form a most charming pattern. The horizontal look of ice floes paired with the layered structure at the edges brings to mind an ice plate freshly cut from a frozen, winterly lake.

dinner plate "Ice"
glass (crimped glass chips), white, round, bevelled edges, dishwasher-safe

item	Ø in cm	height in cm
5760.35	35	2

dinner plate "Ice"
glass (crimped glass chips), white, square, bevelled edges, dishwasher-safe

item	l x w x h in cm

glass platter "Ice"
glass (crimped glass chips), white, rectangular, bevelled edges, dishwasher-safe

item	l x w x h in cm
5762.16	16x12x2
5762.33	33x12x2
5762.40	40x15x2

Bevelled edges provide an elegant look as well as easy handling. No matter if it is used as a dinner plate or as a sushi plate, for the presentation of a variety of cheese or the staging of desserts, muted colours combined with a clear structure create a perfect basis for stylishly putting artful creations in the limelight.

DESIGN by ZIEHER

“Double-walled glass“

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features. The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The isolation effect keeps cold and warm liquids cold or warm for a longer time.

decanter
borosilicate glass, transparent, handblown, double-walled

item	Ø in cm	height in cm	content in l

item	Ø in cm	height in cm	content in l
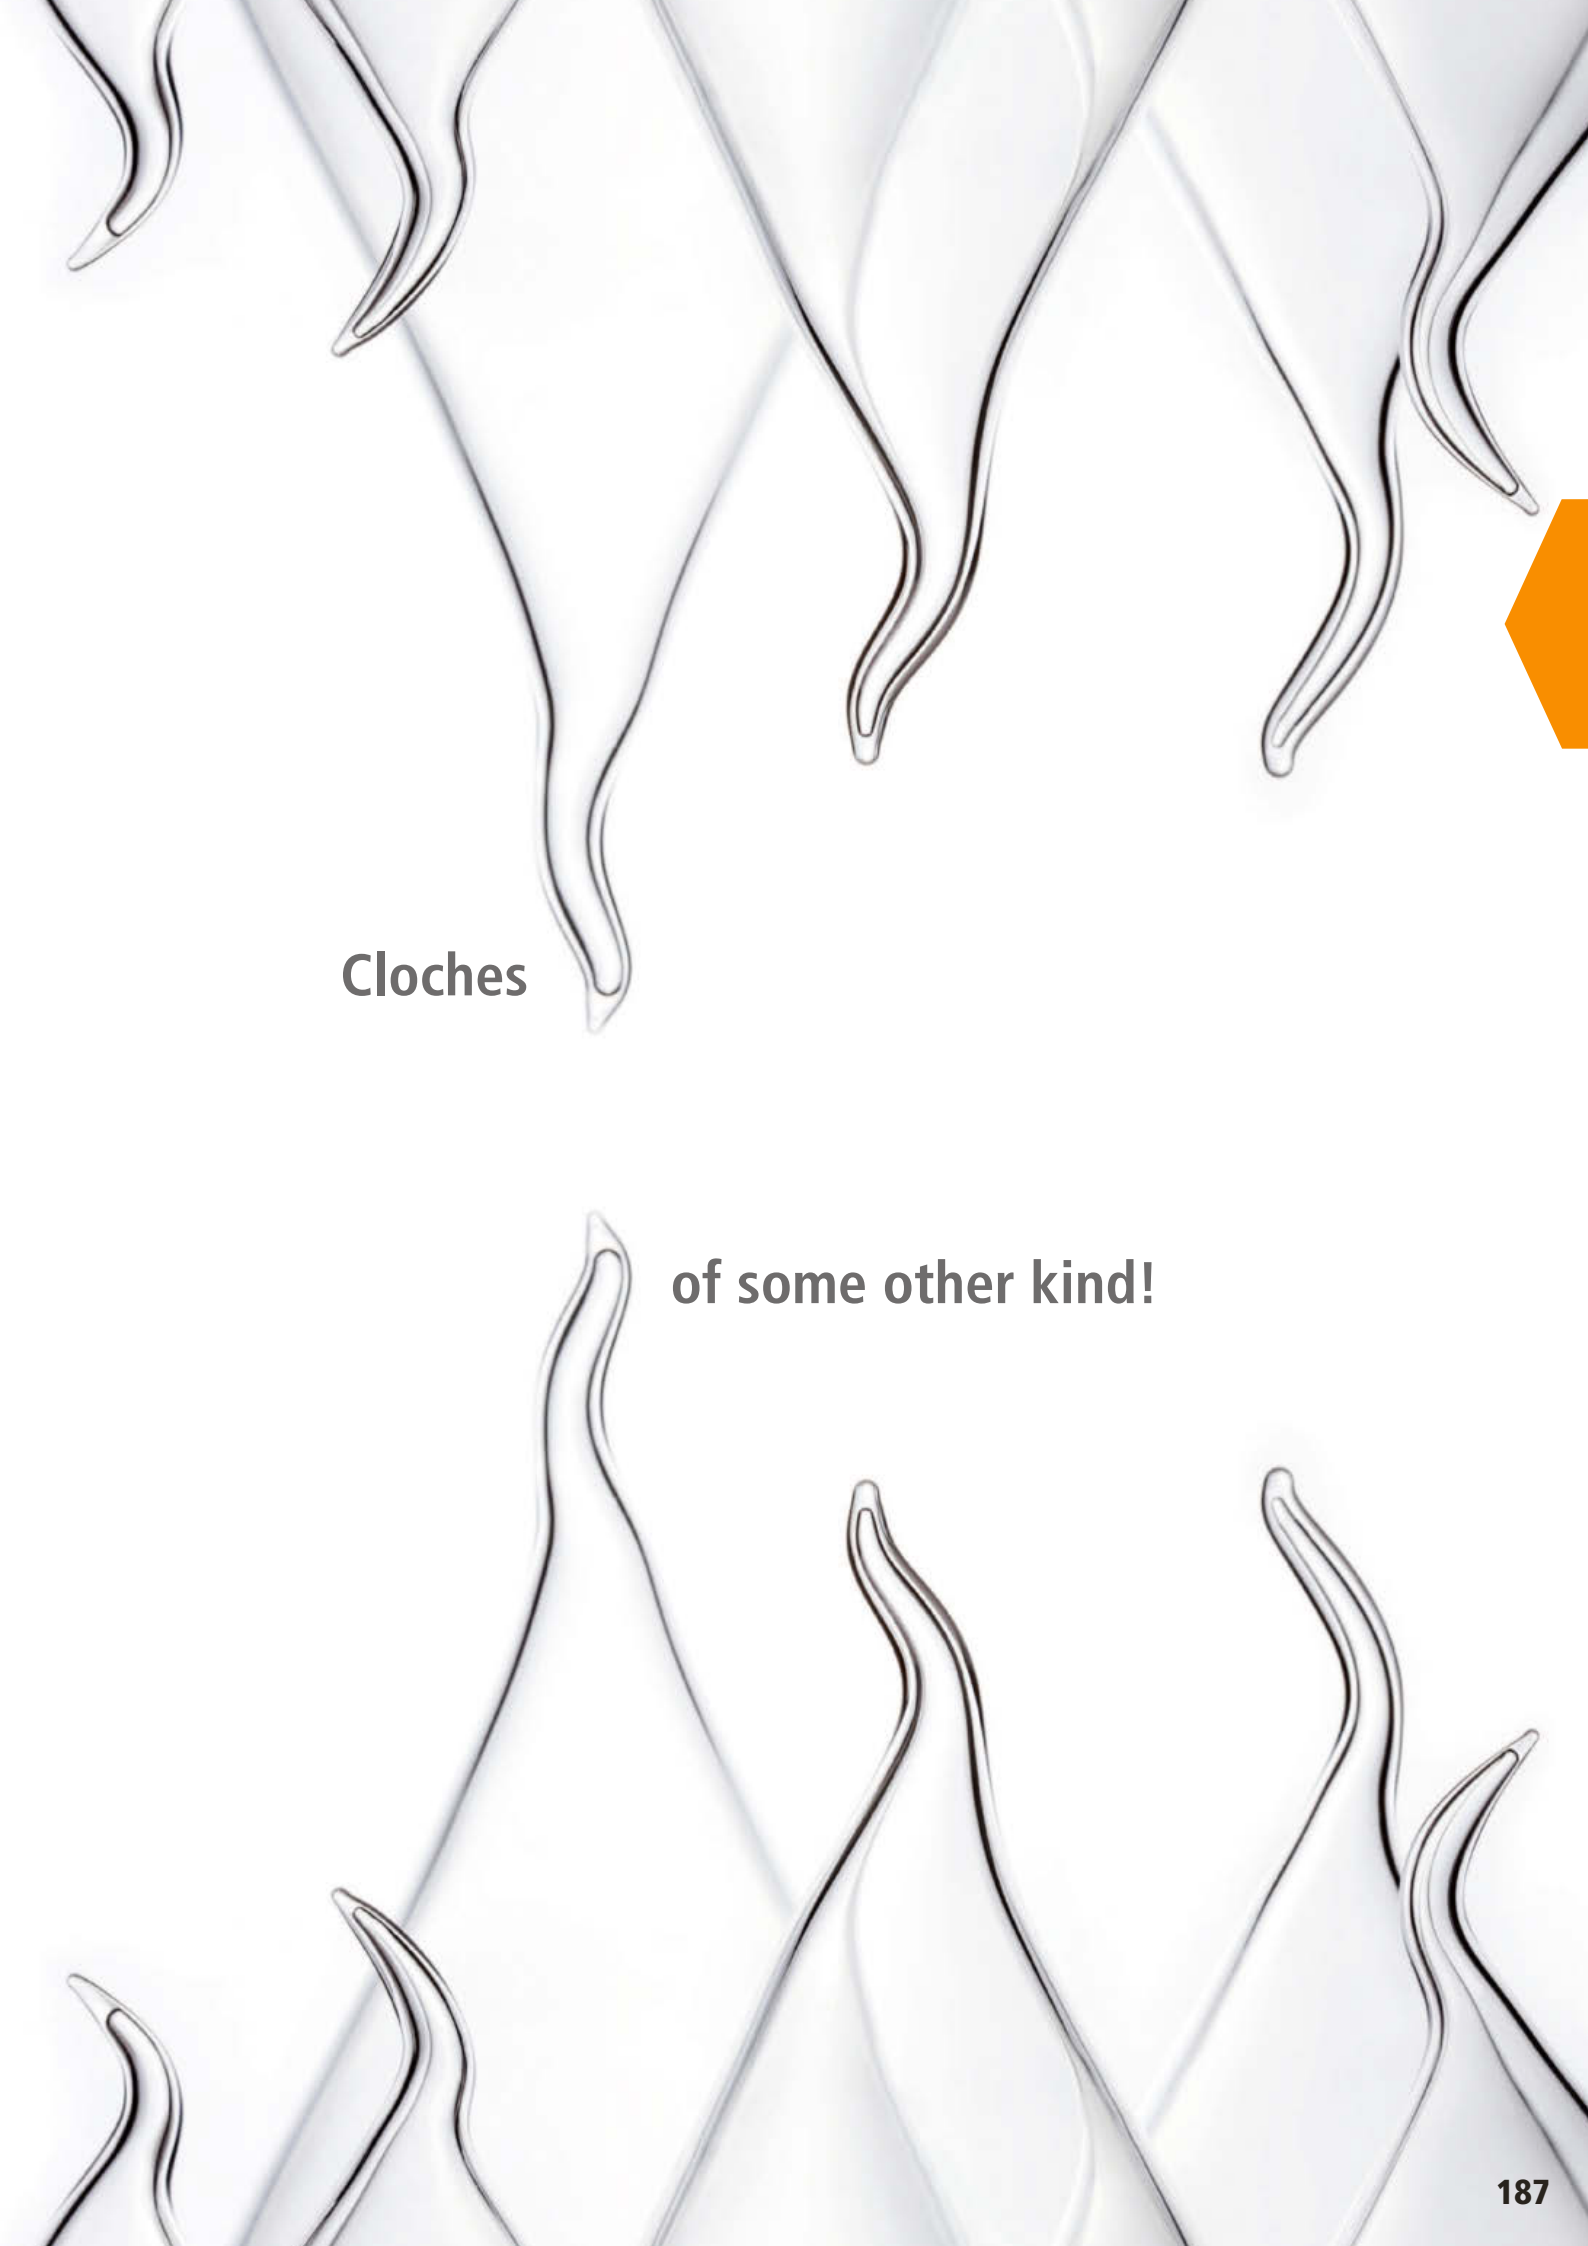
5352	9	31	1.0

The wine cooler of the series “Skyline” is available on page 10.

Please note: since all double-walled glasses are handblown, deviations from the declared content may occur.



Cloches
of some other kind!

"Cuspis"

The cloches and porcelain coasters of the series "Cuspis" are inspired by the nuts of the oak tree. The ball-shaped handle at the tip of the cloches allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain coasters with its distinctive texture is reminiscent of acorn caps. The coaster can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight. Used as a bowl, it offers space for gravies, sauces and more.

If the item is used upside down as a plate, the two rings on the plate's underside can be used to separate the prepared dish into different sections and the cloches of the "Cuspis" series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

4943.25PB	25	approx. 33/35	1 set (2 parts)

More items of the "Cuspis" series are available on page 212.

The glass cloches, which are available in 10 sizes (diameters 5 cm to 30 cm, pages 189 to 193), delight by their high quality and unusual form! The presentation of fine truffles, an exclusive choice of cheese or simply a single praline – there is a fitting size for each purpose!

The lightweight cloches by Zieher are heat resistant, dishwasher safe and very easy to handle for the guests. Each item is manufactured by hand and therefore shaped individually.

The raw material for these items is borosilicate glass which is mainly used for laboratory dishes. Its main features are a great resistance against heat and changes in temperature as well as a high break resistance. A wine cooler of the same design is available on page 23.

4854.01	13
4854.02	16.5
4854.03	23

These items are handblown and handcrafted.
Minor size tolerances are normal and unavoidable!

Each cloche is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 189), these items are made of a massive glass drop. Therefore air inclusions and minor streaks cannot be avoided completely. Each cloche is unique, the result is a harmonic enlivenment of the buffet for an attractive price.

Example of application:
Presentation of a premium beer type

Making precious materials more precious - whether it is glass or china ...

„gold“

„platinum“

„bronze“

... everything is possible!

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

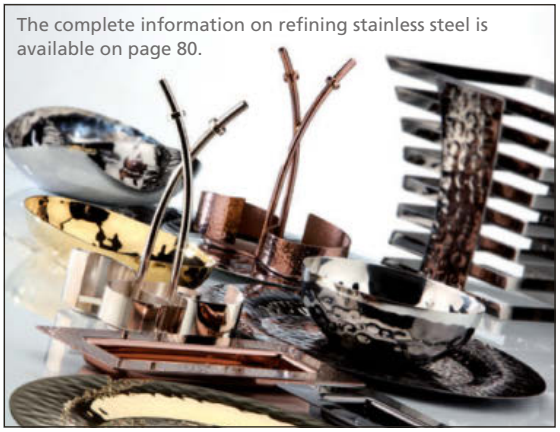
In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys we obtain a connection to the varnish which is strong enough for the products to become dishwasher-safe. Test series by the “Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG“ have proven the dishwasher resistance of the décor.

Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones which blend into each other and create unique effects.

Since the products are refined in Germany, specific patterns/orders are usually executed quickly. Please do not hesitate to send us your special request!



The complete information on refining stainless steel is available on page 80.

Satin-coated logos applied before the refinement still remain visible.

colour gradient “bronze“

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage.

Since the coatings are made of precious metals, the use of microwaves is not recommended under any circumstances.

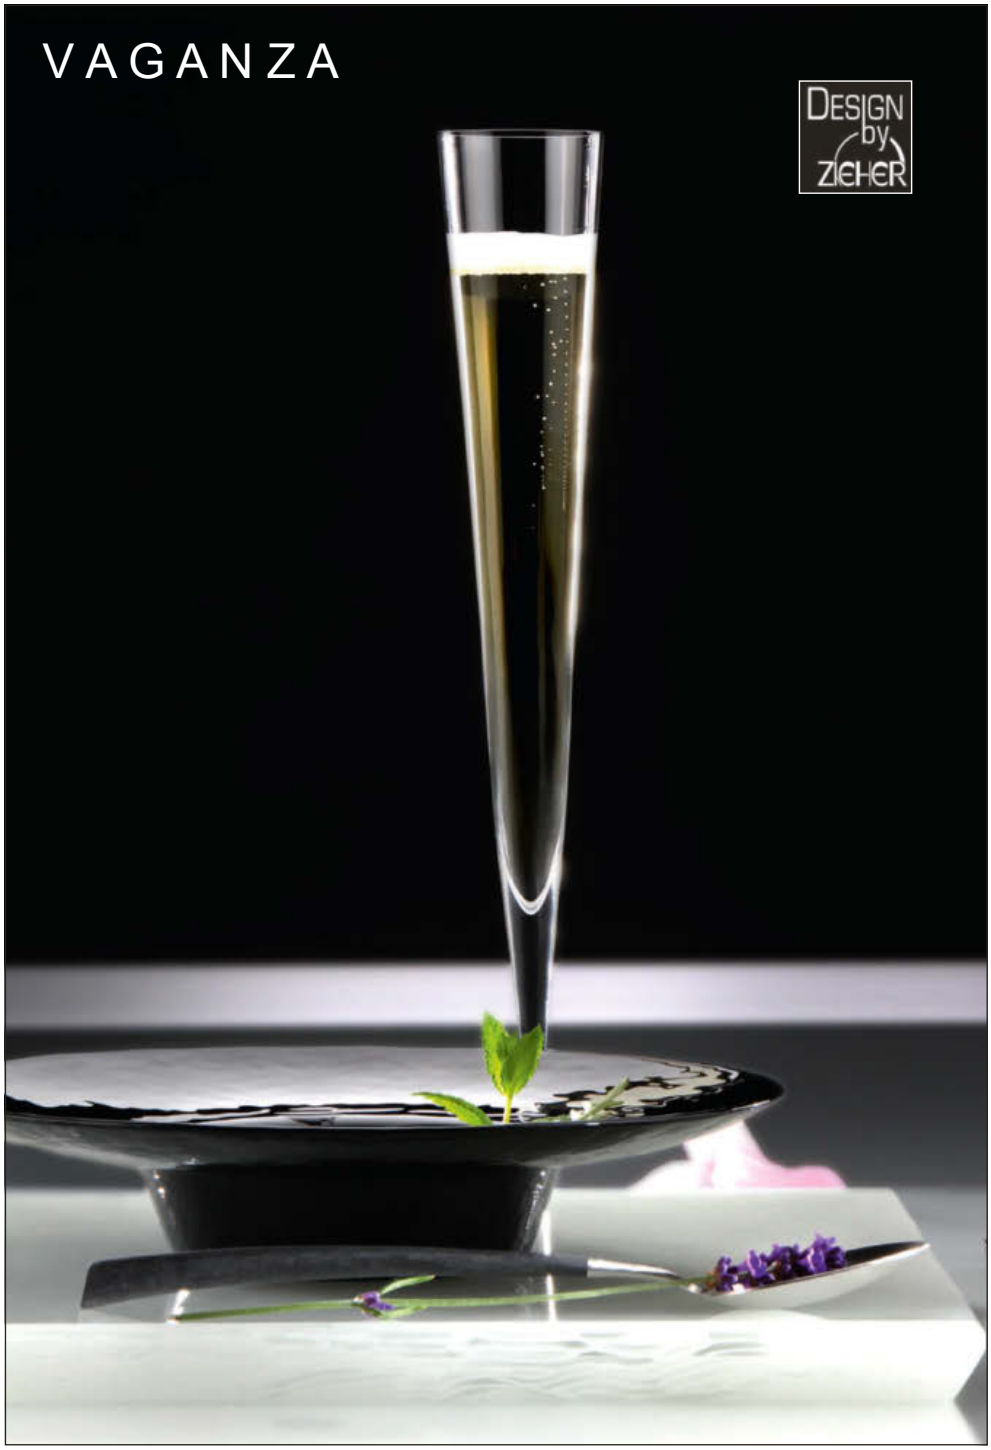
VAGANZA



The filigree champagne flute "Vaganza" is handblown and created in superior handicraft by experienced glassblowers. The result of this work is a crystal glass of highest craftsmanship. "Vaganza" captivates by its slim silhouette and elegant shape that bestows an exclusive character on the glass. The versions coated in gold or platinum fascinate with brilliant colours and the luxurious appearance of the applied decors. "Vaganza" seduces by its charming lightness and adds a touch of high society to any event.

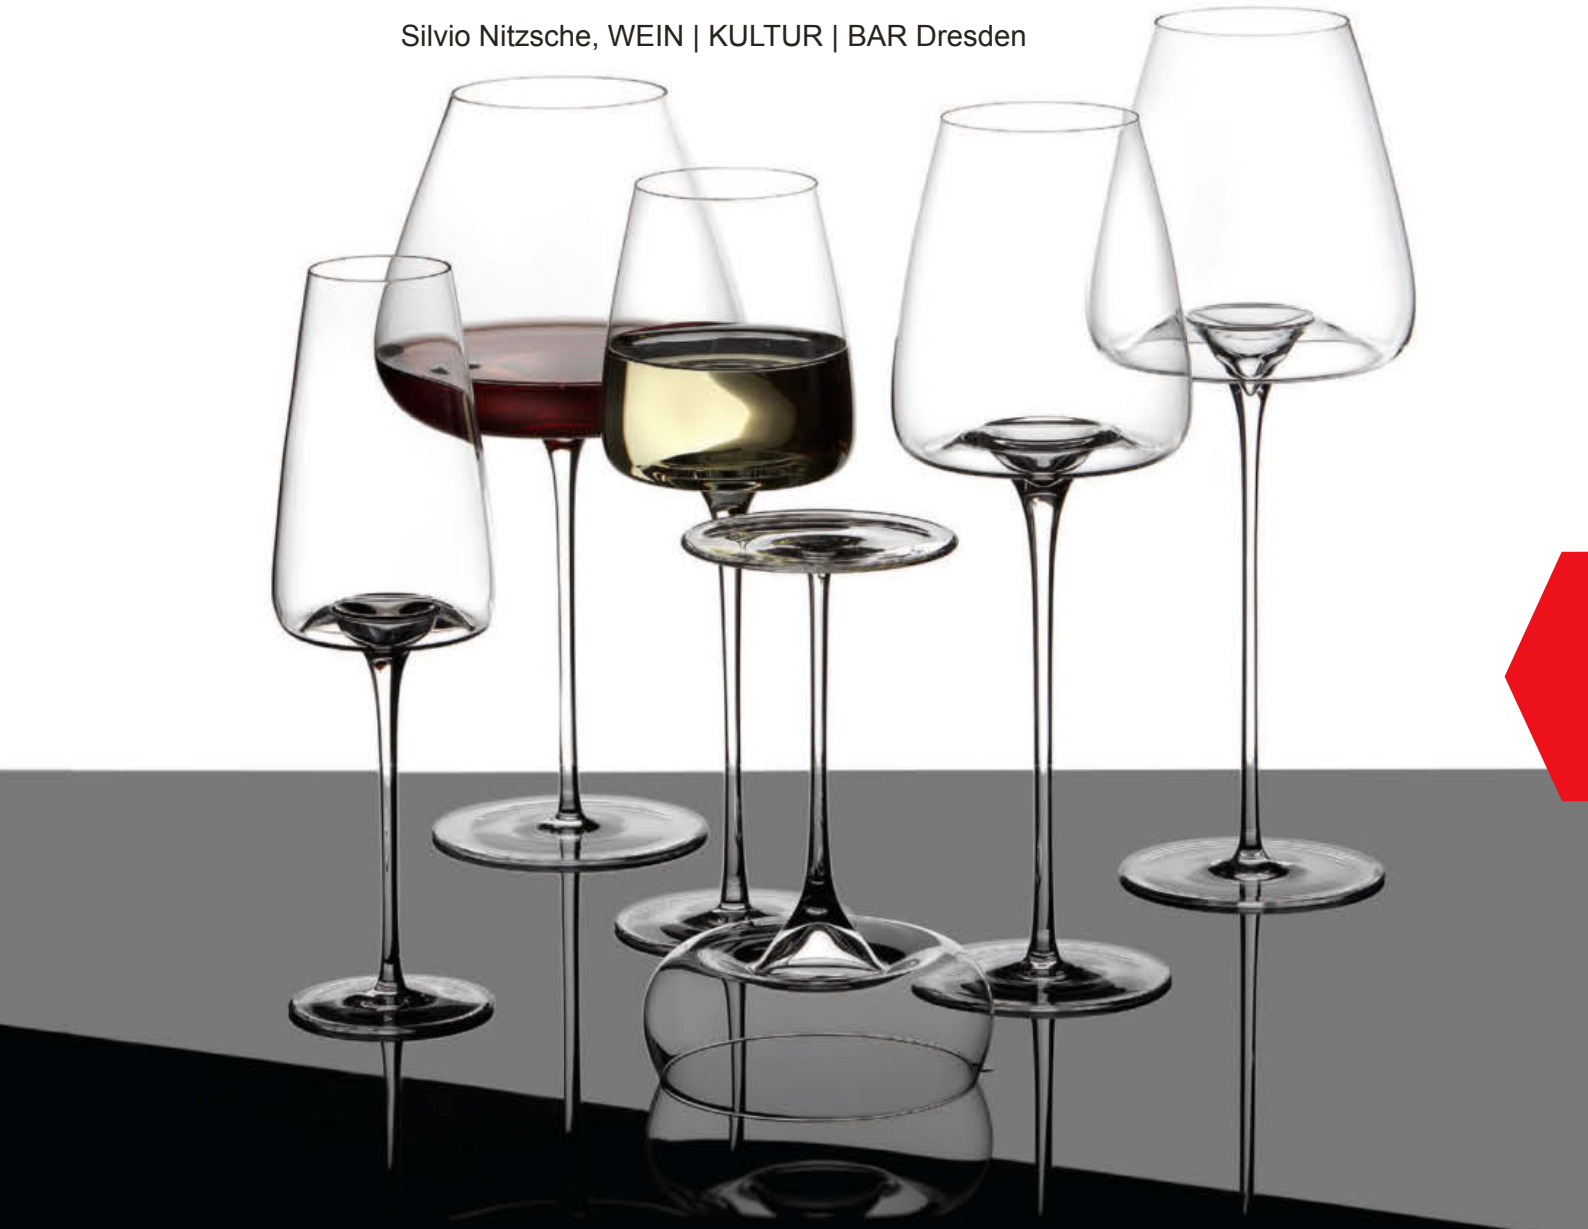
"YOU HAVE NEVER SEEN WINE LIKE THIS!"

Silvio Nitzsche, WEIN | KULTUR | BAR Dresden



"My whole team and I myself are convinced that the beautiful glasses of the VISION series represent a new league of wine glasses. We also receive a lot of positive feedback from our guests."

- GÜNTER SEEGER, NEW YORK

The restaurant "Guenter Seeger" in New York City has been awarded multiple times by: Michelin Star and James Beard Award.

www.gunterseegerny.com

"From the very beginning we have been excited by the appearance and the design of the glasses. But after the first degustation we have been ethusiastic! We did not want to stop tasting. The wine simply gains a different character. The BALANCE glass makes decanting superfluous - and a Grappa out of the RICH glass is simply a great experience!"

- THOMAS DÖTZER, BAYREUTH, GERMANY

Top chef at Bayreuth, food stylist, wine expert and entrepreneur

www.doetzers.de

"I realized in the very first moment, when taking the first sips out of these glasses, that the VISION glasses are something very special. The glasses appear distinctively light and precious and are a real eyecatcher, but this is of minor importance to me. The crucial point is that even the taste of the best wine can be enhanced by drinking it out of the proper VISION glass."

- HERMANN PFLAUM, PEGNITZ, GERMANY

Franconian top chef and author of cooking books, founder of the legendary "Pflaums Posthotel", Pegnitz, co-founder of the novelle cuisine and of the "German Academy for Culinary Studies".

For further information about the VISION series, philosophy and far-reaching analysis of the sommelier Silvio Nitzsche please visit www.zieher.com/en/products/vision.html.

FRESH

"You have never seen wine like this!"

Silvio Nitzsche, WEIN | KULTUR | BAR Dresden

The Life and Work of Silvio Nitzsche

"Of course, there is life without wine, but who wants that?"

During a career as a sommelier, which has spanned more than twenty years, Silvio Nitzsche has looked after both guests and wine in some of the best Michelin-starred restaurants.
Some of his high-profile positions have been:

- Sommelier at "Dieter Müller Restaurant" (19.5 GM, *** Michelin), Bergisch Gladbach / GER
- Sommelier at "Erna's Elderberry House", Oakhurst / CA, USA
- Assistant Restaurant Manager and Sommelier at "Speisemeisterei" Restaurant (18 GM, ** Michelin), Stuttgart / GER

Silvio Nitzsche has now found a new home in the city of Dresden, where he has worked as a sommelier for almost ten years. At the WEIN | KULTUR | BAR that he opened there, he and his team have managed to establish a wine bar that many wine enthusiasts consider to be one of the best in Europe. He has succeeded in creating a place where wine is a permanent feature.

VISION

Filigree Craftsmanship meets Innovative Design

"Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass blowing workshops in the world. Each glass is unique and has been created from lead-free crystalline glass using a traditional glass-blowing method.
As well as having a perfect, highly sophisticated and fascinating design, the glasses in the VISION range are guaranteed to provide maximum aroma and optimum development of the wine. However, it is particularly the fascination of the light, the colours and the visual depth that make it impossible to tear your eyes away from the glass, because: You have never seen wine like this!"

The Vision

"No distinction is made between red wine or white wine glasses in this collection, the glasses are simply theme-based or character-based. The names of the glasses clearly explain what they are used for: You intuitively reach for the glass which in the best way presents the flavours of the wine that you particularly wish to emphasise. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation that mirrors your requirement best."

Silvio Nitzsche

The Zieher Food - V I S I O N

The series VISION is predestined for wine and has been created to perfectly represent its different facets. In addition to this, the glasses offer an extraordinary platform for small delicacies or complimentary dishes from the chef. The harmonic wavy shape of the bottom creates an eye-catching ring when filled with spume or liquids. The depression in its centre provides space for amuse bouche or decorative highlights.

FRESH
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.01	8 / 24	approx. 340	2 pcs

For extremely fresh white wines, Prosecco or any variety of sparkling wine, and light rosé wines

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides the palate with a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, freshly acidic structures is encouraged, and individual features of the bouquet are brought into focus.

STRAIGHT
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.02	9 / 27	approx. 540	2 pcs

For pure grape varieties and fruity / aromatic red and white wines

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aroma culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

INTENSE
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.03	10.5 / 28	approx. 640	2 pcs

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wines

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet, and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

VISION

BALANCED

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.04	12 / 25	approx. 850	2 pcs

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagne

A perfect glass for wine that is not for decanting because of its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

RICH

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.05	7 / 23	approx. 280	2 pcs

For fortified, sweet and dessert wines and any type of distilled beverages

A glass for the majority of heavyweight or high-proof drinks. The small presentation surface ensures that the wine or brandy does not become overly concentrated, so that the heavyweight aromatic elements are released in a nuanced way. Due to the glass having a narrow opening, the nose cannot go in very far, which prevents the perceiving mucous membranes from receiving a barrage of alcohol.

NOSTALGIC

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.06	10.5 / 16.5	approx. 250	2 pcs

For mineral water, cocktails, or as a food glass

A glass which manages to distinguish any mineral water with its extremely open chalice design, which appeals to an extensive palate. The acids and the individual, extremely fine mineral elements of the water are delivered to the tongue and the palate in a refreshing way. At the same time, the carbon dioxide is harmonised and has an extremely refreshing effect, but avoids being penetrating, flavour-destroying or intrusive.

For the series VISION we recommend the

CAMBRO - Camrack® Warewashing System

The Camrack® Warewashing System will protect your valuable stemware and tumblers not only during washing, but also during stacking, storage and transportation. This helps to avoid costs related to damaged glasses. Detailed information about the Camrack® Warewashing System is available at www.cambro.com.

Camrack® 4-in-1 Warewashing System

- Efficient washing
- Optimum sanitary storage
- Inventory control
- Safe, sanitary transportation

Camrack® Warewashing System

Cambro® offers a 4-in-1 system where glassware is washed, stored, identified and transported in one single unit. This multipurpose unit involves the Camdolly®, Camrack® compartment racks and the Camrack® cover.

4682.S	black	3 pcs
4682.W	white	3 pcs

"The decanter "Eddy "defines the world of extreme wine instruments in a completely new way. Outstanding functionality combined with a language of design on an aesthetic level, which has seldom been achieved for wine instruments in such a fascinating way. It is amazing which matchlessly fast-paced development of structure each wine, no matter if red, white or rosé, experiences in this respirator. Once rotating in this texture stimulator, the wine – within seconds - runs through a development, which leads to an oxidation reaction of several hours, due to the thousandfold swirls at the conical indentations."

Silvio Nitzsche - WEIN | KULTUR | BAR - Dresden, Germany

GIFT BOX

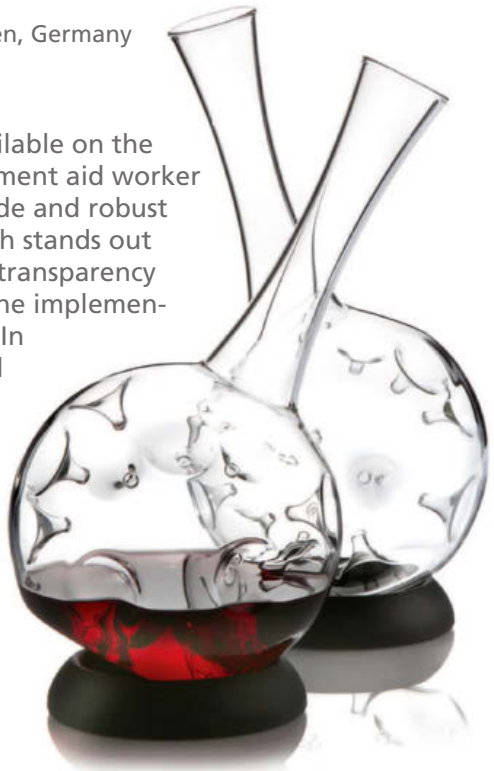
New!

decanter/carafe "Eddy" with ring
set consists of:
decanter made of borosilicate glass, transparent, handblown, approx. 2.3 l content
ring made of silicone, black
1 set in black gift box

item	Ø in cm	height in cm	PU
4884.PB	17	35	1 set (2 parts)

Design: Silvio Nitzsche

As opposed to most of the decanters available on the market, the raw material of this development aid worker for wine is not crystal glass, but high-grade and robust borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, was the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they create also visually interesting colour reflections and formal, almost graphic effects. The volume of this respirator has been dimensioned in a way that, with a filling of up to 1.5 litres, the extension of the wine's surface becomes as large as possible. Due to the complanate bottom the decanter stands safely and straight, the enclosed base made of finely structured matt black silicone also allows an inclined positioning.



No sliding, no clattering …

The china series "DressCoat" is available on pages 150 and 151.

… with the non-slip pads by Zieher!

The coasters made of food safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are a thing of the past.

The skid-proof discs with their delicately structured, matt surface facilitate the service's work and ensure undisturbed enjoyment for the guest.

The coasters are available in two colours and diameters (Ø 5 and Ø 7 cm); the white ones can be integrated discreetly, whereas the black ones can be used deliberately as contrasting, decorative elements.

The glass plates are available on page 176, the glass cloche on page 193.

Borosilicate glass in its most beautiful shape!

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with a fitting porcelain plateau plate/mini bowl are available in three sizes and the inspiration for their shaping was derived from the nut of the oak tree. The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more. Amuse-bouches and any kind of finger food can be served on the series' shapely amuse gueule spoons. In this case the glass ball serves as a secure handle. The capacity of the spoons is sufficient for a usage with sauces or dips on the plate, but also at the breakfast buffet for jam and the like.

The large cloche "Cuspis"
and the suitable plateau plate
are available on page 144.

The cutlery series "Goa" is available on page 300, anti-slip coasters made of silicone on page 210.

“Lacuna”

Braving the gap!

Perforated walls, irregularly spread openings in filligree borosilicate glass – the small bowls of the series “Lacuna” stand out. Numerous holes in different sizes form the basis for sophisticated presentations of high-grade dishes. They set limits on the one hand, however offer various possibilities for creative arrangements and an extraordinary food presentation on the other.

The glass cone can be employed in three different ways. Rested horizontally and stabilized by a fork or a spoon, standing upright in various miniatures or put in elegant supports made of silicone or as an extraordinary cloche for the presentation of delicate tidbits.

Suitable accessories like anti-slip coasters made of food safe silicone or borosilicate glass straws enormously extend the scope of application of that series. Even working with small skewers for finger food may be envisaged.

Glass designer Michael Schwarzmüller puts delicious appetizers perfectly into focus. The filigree jars with their organic form offer top chefs and professional hosts the possibility of serving fingerfood and amuse bouche in an "Amuse"-ing way.
"Amuse" wants to inspire imagination and stimulates playful experimentation. This series made of thin-walled, strong and heat-resistant borosilicate glass comprises of a variation of beautifully handcrafted cups, bowls, cloches and remarkable glass tins. The latter are perfectly suitable for the presentation of small soups and desserts, but may also be used as exceptional sugar bowls. The exact fitting lid ensures the protection and hygiene of the content. The double-walled bowls of the series in fact absorb heat or cold.

Please note: since all glasses of this series are handblown, deviations from the declared content may occur.

The glass tray is available on page 276.

Double-walled thermo-glasses

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features.

The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The isolation effect keeps cold and warm liquids cold or warm for a longer time. Borosilicate glass by Zieher stands out due to its hardness and high temperature resistance.

The fondue set is available on page 163.

The silicone ring is available on page 230.

4603.12	glossy taupe	4 pcs

"Cave"

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight this porcelain piece only partly reveals its interior. "Cave" consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. Touching the cave-shaped bowl it feels almost like a palm stone made of white gold, having a soft appearance with delicious contents. "Cave" is predestined for a use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and fits perfectly in the palm of the hand.

New!

DESIGN by ZIEHER

Skewers and more!

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical slaty cleavages, therefore every piece is unique. Small deviations in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

Marble is a natural product, which means that the dark brown marbling can vary strongly. This is exactly what creates the vivid and unique look of this natural stone. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.
Cleaning: Please clean only with a wet cloth and gentle cleaners. Not dishwasher-safe. Cleaning in a dishwasher may dull the surface.

Granite is a natural product. Deviations in colour or structure are possible. Infrequently, pockets in the stone may occur. Granite is the hardest and most impervious kind of our natural stones!
Sushi trays made of granite are available on page 180, a bowl on page 241.

The small bowls "Amuse" are available on page 216.

"Solid"

1 + 2 + 3

1 + 2 + 5

Delicacies in delicate setting – presentation boxes made by Zieher!

Due to the comprehensive range of accessories the small-sized box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules.

1 + 2 + 4

The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

Cruet stands, trays and more!

Marco D'Andrea:

"In search of the perfect way to present my chocolates/truffles and after receiving manifold inspiration from colleagues, I have asked a carpenter of my acquaintances to manufacture some first prototypes. It was important to me that the box could be used to present jewellery and diamonds as well.

In addition to our petit fours trolley we used the prototypes in our gourmet restaurant; in our restaurant "Deck 7" we sell the chocolates/truffles along with the coffee. The round deepenings in the box are made out specifically that, even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look. The brown tinted glass yields the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours."

chocolate/truffle box "Solid"
walnut, with brown-tinted glass lid (can be used as rear wall or to slide in on the bottom side), food-safe sealed, rectangular, not dishwasher-safe, 2 compartments: 1st compartment with 48 cavities for chocolates, 2nd compartment 21.3 cm x 6 cm

The most exquisite chocolates/truffles in exclusive ambiance

Finest creations of the pâtisserie have to be presented in a worthy frame!

A presentation box with exchangeable inserts made of composite mineral is available on page 244.

DESIGN by ZIEHER

Idea and design for these presentation boxes "Solid" for truffles and filled chocolates are from Marco D'Andrea, pâtissier and "Junger Wilder 2012". With this most coveted award Marco D'Andrea has been acknowledged for his creative work.

In the year 2014 D'Andrea has been proclaimed "Pâtissier of the year 2014" during the "Leaders of the Year" convention (powered by ROLLING PIN).

Marco D'Andrea has visited the Zieher booth at the Salzburg fair after he won the challenge of "Die jungen Wilden 2012", to present his filled chocolates and truffles in Zieher products. He happened to have with him the prototypes of his chocolate/truffle boxes, and everyone at the stand immediately realized that these boxes would fit perfectly into the Zieher portfolio. After some small improvements in construction and quality, the first Zieher boxes had been presented in 2013 already. The wood of the walnut tree has been chosen for this box, as it had been for the "Solid" series already.

Please note: the maximum filling height of the side compartment is 26 mm (when lid is closed).

“Solid” - Wood in its most beautiful shape!

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood’s warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in daily use. Please note the enclosed care instructions, not dishwasher-safe, do not immerse in water!

The bread buffet “Solid” is available on pages 106 to 111.

The glass plates are available on page 176.

cutlery/napkin box “Solid”

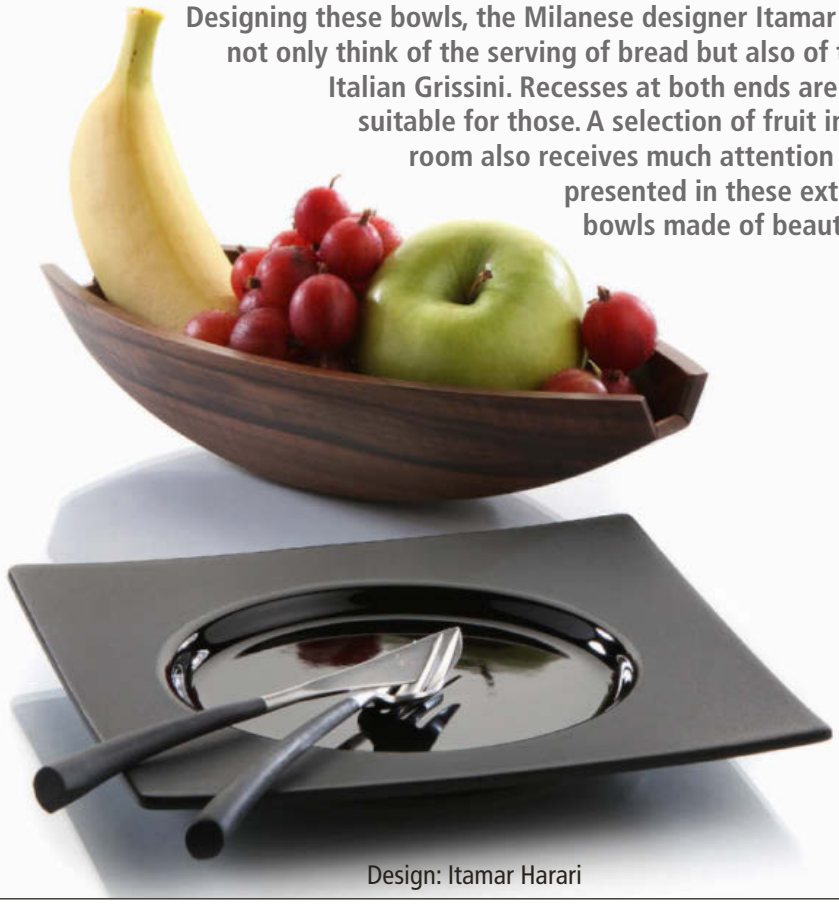
The bread baskets made of solid maple and walnut wood surprise with their exceptional design and their highly sophisticated handicraft.

Designing these bowls, the Milanese designer Itamar Harari did not only think of the serving of bread but also of the typical Italian Grissini. Recesses at both ends are especially suitable for those. A selection of fruit in the hotel room also receives much attention if stylishly presented in these extraordinary bowls made of beautiful wood.



Design: Itamar Harari

The cloches of the series “Amuse” and more cloches made of glass and china are available on pages 188 to 195.

“Connect!” Serving platters made of walnut!

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series “Connect!” convince as a snack board, serving or cutting board, or as a presentation platter created by the combination of several elements.

“Connect!” is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling.

The solid walnut wood is sealed with high-quality oils which makes it easy to freshen up the surface from traces of everyday wear and tear.

Breakfast in bed - Inroom dining!

New!

GIFT BOX

bed tray „Solid"

walnut, with feet, food-safe sealed, not dishwasher-safe, stackable, with 2 handles, recessed on one side of the rim

item	l x w x h in cm closed	l x w x h in cm set up
4773.PB	60x40x6.5	approx. 74x40x31

Rubber feet at the bottom that are slightly offset toward the middle enable the transport in a tray trolley in 1/1 EN-format 60 cm x 40 cm.

roomservice tray "Solid"

walnut, food-safe sealed, not dishwasher-safe, stackable, with 2 handles, with 4 rubber feet, recessed on one side of the rim, suitable for tray stand "Solid" item 4748

item	l x w x h in cm
4735	60x40x5.4

The roomservice tray as well as the new bed tray stand out due to the precious walnut which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that even with soft mattresses a comfortable seating beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

A suitable tray stand made of walnut is available on page 286.

5244.28	28.2	1 pc.

"Fakir"

Massive brass produced in traditional sand casting creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.
A perfect add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and generate thus the option to use the impressive objects on both sides.

Please note: the items made of brass are suitable for cold/dry food only.
Not dishwasher-safe.

"Capiz"

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal.

tray "Capiz"
shell, ivory-coloured, resin-coated, square, not dishwasher-safe

item	l x w x h in cm
7103.20	20x20x2
7103.26	26x26x2

Genuine clamshells are grinded razor-thin and embedded in robust resin. This process protects and stabilizes the delicate clamshell-wafers in the long term. The transparent resin creates an impressive depth effect and a classy shine on every item of the "Capiz" series.

Please note: the items made of resin coated shells are suitable for cold/dry food only. Not dishwasher-safe.

“Slope”

4596.45PB	white	45x29x4.2	1 pc.

“Slope”

The melamine tray “Slope” is characterised by its unobtrusive shape and the pleasant feel of the matt and finely structured surface. An elevated corner and the resultant asymmetry awards the tray that certain something. Besides the obvious function as a service tray for espresso, cocktails, snacks and more it, also performs well in the hotel bathroom or as a decorative trivet in the hotel room. “Slope” is available in a black and a white version and in two sizes. The robust raw material melamine appears very elegant due to its matt surface and of course it complies with demands of everyday use like food safety, dishwasher resistance as well as stackability.

Elegantly served and presented in style - Classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three or four levels and in two sizes. The classic mini format etageres effectively present petit fours, desserts, chocolates or other delicacies. The larger versions are ideal for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table.

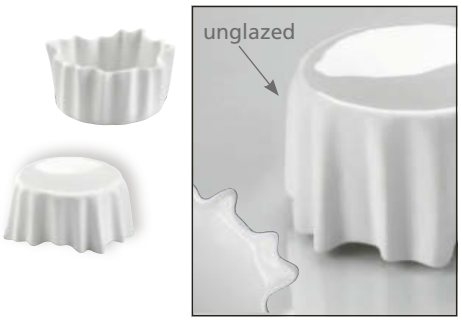
"DressCoat"

The plateau plate "DressCoat" item 4386.02B is unglazed on the outside. The filigree porcelain item is translucent and is therefore - besides being a stunning means to present food - also perfectly suitable as a tea light holder!

The complete series "DressCoat" is available on pages 150 and 151.



plateau plate "DressCoat"

8130	30.5x13.5x4

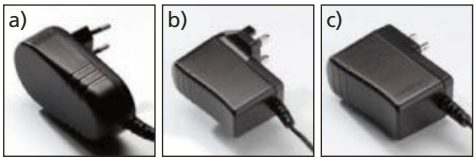
b) LED tealight
plastic, white, yellow light, flickering effect, for LED tealight set item 8130

item	Ø in cm	height in cm	PU
8131	4	5	4 pcs

Consistently long lighting time with deceptively real flickering effect!

The LED-candles, in combination with different fitting Zieher tealight holders, turn every table into a homelike place for romantic hours.
The power supplies, which are available separately, optionally with EU-, UK- or US-plug, guarantee a worldwide operation of the LED set. Due to the induction charging mechanism, the LED-candles do not have any electrical contacts. This and their water resistance (not waterproof) make them ideal for outdoor use. Each tealight candle is equipped with a yellow shining LED and by skilfully switching between bright and dark, it achieves a deceptively real candle flickering effect. The rechargeable battery, which is integrated in the LED-candle, assures a lighting time of 20 hours with a charging time of about 8 - 9 hours and a lifetime of more than 500 charging cycles (this equates about 10.000 operating hours). The induction charging base, which is included in the set (item 8130), allows the charging of up to 12 LED-candles at the same time. Another plus is the integrated plug connection which allows to connect up to 4 charging bases to one single power supply. This enables the charging of up to 48 LED-candles with one electrical socket at the same time. One set (item 8130) includes 12 LED-candles and 1 induction charging base. The respective power supply (item 8132. EU/UK/US) needs to be ordered separately.

Bring the romantic atmosphere of candles to your own table - via modern LED technology!



power supply
for LED tealight set, up to 4 LED tealight sets (total of 48 candles) can be connected using 1 power supply only

8004.07B	dark grey

The tray stand of the series "Solid" convinces in every aspect!

The shapely stand always provides the appropriate possibility to set up the "Solid" room service tray (item 4735) in the hotel room but also in the restaurant. Combined with Zieher buffet platters in the format 2/1 GN, the stand easily and flexibly creates new spaces at a comfortable height. It is predestined for the use at the buffet as well as for the use during coffee breaks in the congress and convention business. The massive frame made of walnut wood harmonizes perfectly with other buffet items of the series (pages 104 to 117) and can be combined with them very well.
Anti-slip rubber feet on the top prevent the shifting of platters and trays, felt gliders at the base protect the parquet flooring and ensure safe standing.

item	l x w x h in cm closed	l x w x h in cm set up
4773.PB	60x40x6.5	approx. 74x40x31

The rubber feet at the base are set back from the rim to enable the transport on a tray trolley in 1/1 EN-format (60 cm x 40 cm).

roomservice tray "Solid"
walnut, food-safe sealed, stackable, 2 handles, recessed on one side of the rim, not dishwasher-safe, with 4 rubber feet, suitable for tray stand "Solid" item 4748

item	l x w x h in cm
4735	60x40x5.4

The roomservice tray as well as the new bed tray stand out due to the precious walnut which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that even with soft mattresses a comfortable seating beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

The recessed longside of the roomservice tray simplifies comfortable dining directly off the tray.

Please note the care instructions: wooden items are not dishwasher-safe, do not immerse in water!

Delicacies in delicate setting – presentation boxes made by Zieher!

Due to the comprehensive range of accessories the small-sized box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules.

1 + 2 + 6

The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

Please note the care instructions: wooden items are not dishwasher-safe, do not immerse in water!

Extraordinary storage places ...

Bedded on glass

This variant of the "Donna" pillow is made of frosted glass and despite its hard and massive raw material it surprises by its pleasantly soft and velvety feel.

The organic shape of this extraordinary piece offers an ideal presentation area for extravagantly staged intermediate courses or serves as a fancy place to keep all sorts of small objects of everyday life.

Even when used as a soap dish, the pillow cuts a good figure. A verison made of porcelain is available on page 142.

GIFT BOX

The porcelain pillow "Donna" is available on page 142.

Design: Wilma Greim

Bedded on wood

Made of solid wood, milled with dedication and refined with high quality oils!

This sculpture of solid walnut, one of the finest European varieties of wood, has its own appearance. The sealing with oils emphasises the striking grain of the wood and gives the surface a silk-matt gloss as well as amazing haptics.

One just has to touch the softly curved forms of this hand charmer. Whether used as a fruit bowl, as a place to keep accessories or as sculptural decoration - "Donna" seduces in every material!

8732.03	32.5x26.5	1/2	6 pcs

The fruit bowl “Sixth Sense” item 2171.02
is available on page 82.

The buffet bridges and trays of the “Podia“ series offer several advantages! They are light but robust, flexibly usable and can be stored in a space-saving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - “Podia“ offers multiple possibilities for use and flexible handling. Three trays in GN formats (1/2, 1/3 and 2/8) are especially suitable for different miniatures made of porcelain and glass; slide-proof silicone coasters in different styles (page 210) guarantee a good grip during service. All parts of this series consist of form-glued authentic wood veneer, the bridges are available in two types of wood. The light version harmonizes very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

Please note the care instructions: not dishwasher-safe, do not immerse in water!

"Slope"

The melamine tray "Slope" is characterised by its unobtrusive shaping and the pleasant feel of the matt and finely structured surface. An elevated corner and the resultant asymmetry award the tray that certain something. Besides the obvious function as a service tray for espresso, cocktails, snacks and more it also performs well in the hotel bathroom or as a decorative trivet in the hotel room.

GENERAL CONDITIONS

This catalogue is valid as of March 1st, 2017. Any catalogues and price lists issued previously become invalid as of that date. This catalogue is valid until February 28th, 2018. Misprints and errors excepted. Colour deviations from photographs reserved. All indications of sizes or measurements are approximate ones and subject to alterations. The respective general terms of sale and delivery of our foreign partners apply. For a list of our foreign partners, please consult: www.zieher.com. Changes on technical specifications and terms of delivery of the products are reserved and need explicit, written confirmation by Zieher or the respective Zieher business partner.

Photographs are protected by copyright law. Duplication, even in parts, as well as reproduction by photomechanical devices, transfer into systems of electronical data storage and data processing, and adoption of the catalogue layout as well as the use of its parts for advertisement purposes are prohibited and will be legally prosecuted as violations of the German copyright law or the law of competition respectively.

Individuality in glass ...

Logos, letterings etc. can be put on the double walled glasses to give them an individual touch. Those are applied onto the outer side of the inner glass which ensures the protection from dirt and abrasion.

... china ...

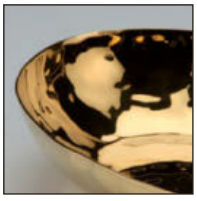
... and stainless steel!

Please ask us, we will gladly prepare an individual offer for you!

Stainless steel refinement through PVD-technology

Highly polished and matt stainless steel can be refined by using PVD-technology to obtain golden, copper and black colouring.
PVD stands for **P**hysical **V**apour **D**eposition and describes a method to coat products with different materials by way of sputtering in a vacuum. Contrary to the galvanic refinement for example with copper, items refined by using PVD-technology will neither oxidise nor tarnish at the surface. Thus any copper refinement can be done without applying specific anti-tarnish protection.
The technical feasibility of the PVD-refinement depends on size and shape of the items and has to be checked individually mostly. Permanently available stainless steel items refined with gold and copper can be found on pages 9, 16 and 80.

stainless steel, polished



golden

copper

black

Advantages of the PVD-coating

- Food-safe
- Dishwasher-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

All information on refining china, glass and stainless steel can be found on pages 80 and 196.

The founders of the company Christa and Manfred Zieher with their sons Dominik and Oliver (on the right side). Dominik is responsible for the sale worldwide and Oliver for product developement and design. Daughter Jennifer (not pictured) is responsible for the controlling.
